ESTABLISHED 1833. FORT WAYNE, IND., MONDAY, MAY 22, 1899. PRICE TWO CENTS.

TO RULE FILIPINOS

A FORM OF GOVERNMENT IS SUBMITTED.

HAS APPROVAL OF PRESIDENT.

NATIVES TO ENJOY RIGHT OF SUFFRAGE.

AMERICANS TO HAVE OFFICE.

PLAN MEETS WITH FAVOR OF FILIPINOS.

Manila, May 22.—3:15 p. m.—Professor Schurman, head of the United States Philippine commission, has submitted the following written propositions to the Filipinos:

"While the final decision as to the form of government is in the hands of congress, the president, under his military powers, pending the action of congress, stands ready to offer the following form of government:

"A governor general, to be appointed by the president; a cabinet, to be appointed by the governor general; all the judges, to be appointed by the president; the heads of departments and judges, to be either Americans or Filipinos, or both, and also a general advisory council, its members to be chosen by the people by a form of suffrage to be hereafter carefully determined upon.

"The president earnestly desires that the bloodshed cease and the people of the Philippines at an early date enjoy the largest measure of self-government compatible with peace and order."

The United States commission prepared the scheme and the president cabled his approval of the form of the document.

The Filipinos have made no definite proposition except for a cessation of hostilities until they can present the question of peace to the people. Professor Schurman told the Filipinos they had no means of gathering the people together, as the Americans control most of the ports. He also reminded them that a liberal form of government was offered them and pointed out that it was better than the conditions existing under Spanish rule.

Gogaga, president of the Filipino commission, replied that nothing could be worse than Spanish rule and admitted that the form of government proposed was liberal. The civilian members of the Filipino commission have declined to co-operate with the other members of that commission, as the former consider Aguinaldo's latest demand to be preposterous, after Major General Otis' refusal of an armistice, referring to his wish for time in order to consult the Filipino congress.

After a conference tomorrow with the United States commissioners, the Filipino commissioners will lunch with Professor Shurman and will afterwards visit the vessels composing the American fleet.

OPERATIONS CONTINUE.

Manila, May 22.—2:18 p. m.—In spite of the presence of the Filipino commissioners in Manila the military operations continue with unabated vigor.

The visitors were apparently ignorant of the true conditions of affairs here. Upon their arrival they were immediately inundated with invitations covering both night and day and express surprise at the conditions of affairs within our lines.

They have been led to believe that everything was chaotic and are delighted at the reception accorded them.

Reports received from persons who have arrived from the interior show that no troops are left in the northern provinces. They were all drafted south after the outbreak of war.

The villages on the west coast are almost deserted and the Ililcanos especially are desirous of joining the Americans, if only for the purpose of crushing the Tagals.

Many natives of Benguot and Ilicos said that if the Americans had not arrived civil war would necessarily have ensued, owing to the friction between the Tagals and the inhabitants of other provinces.

It is added that the only Filipino troops now left are seven thousand men under General Luna at Tarlac and about four thousand under General Rio del Pilar. Even these are demoralized and short of arms and supplies. Many of their rifles are disabled and the Filipinos are unable to repair them owing to the lack of mechanics and materials for so doing.

A coasting steamer which has arrived reports that the Spanish garrison at Zambonaga, Island of Mindanon, is held by the rebels in much the same way the Americans held it while they were in the vicinity of Manila. Every night the Spaniards are subjected to an ineffectual fusilade, and if they are not soon relieved they will be reduced to the condition of the Spanish garrison at Iloilo just previous to the evacuation of that place.

VETERAN OF TWO WARS DEAD.

St. Louis, Mo., May 22.—Brigadier General Christian D. Wolfe, a veteran of the Mexican and civil wars, is dead, aged 77. In both wars he served with distinction and before the close of the war President Lincoln appointed him brigadier general of volunteers.

THROWN OUT AND HURT.

While Gustave Lamberson was driving home on the Illinois road Sunday his horse became frightened at a lady and a gentleman who were coming toward the city on their wheels. The horses started up the road, upsetting the wagon and throwing Mr. Lamberson out. His back was sprained and one of the bones of his right arm was broken above the wrist. A doctor was summoned from the city, who attended to the farmer's injuries, and he was later removed to his home.

APPLIES FOR A FRANCHISE.

COMMUNICATION RECEIVED OF THE CENTRAL UNION.

Desirous of Building a Conduit System in the Down-Town District—Municipal Notes.

The board of public works this morning received a letter from the Central Union Telephone company making application for a franchise allowing them to construct a conduit system in the territory bounded on the north by Dock street, on the east by Barr street, on the south by Murray street, and on the west by Webster street. The communication making application explains that it is the purpose of the Central Union company to construct a conduit system, and within thirty days after the ratification by the council of the contract and the acceptance by the company work will be commenced so that the system can be completed during warm weather. The board is further informed that it will be necessary to erect distributing poles in the territory occupied by the system. The company also asks for a meeting with the board of works before the contract goes to the council. City Attorney Shambaugh is today preparing a contract for the board to act on this afternoon.

MUNICIPAL NEWS.

The city council will meet in regular session tomorrow evening. The committee on streets will report in favor of Councilman Hosey's resolution providing for the placing of conduits under streets improved, providing the council furnishes the money to make the improvements.

An ordinance providing for the protection of cement, brick or other smooth surface sidewalks will also be reported favorably. It provides for a fine of not to exceed $50.

DR. LYONS KILLED.

Dr. William B. Lyons, an aged physician of Huntington, was killed by Wabash fast freight No. 92 at 7:40 this morning. The train was passing eastward through Huntington and Dr. Lyons attempted to cross the railway in front of the train, but was not fast enough, and the engine, which was in charge of Engineer Clark, struck the aged physician and threw him with great force against some cars standing near and crushed his life out instantly. Conductor Wells had charge of the train. Dr. Lyons was one of the oldest practitioners in Indiana, having practiced in the Lime City for half a century. He was well known in Fort Wayne years ago, but of late years his advanced age has prevented him from being as active in his profession as he was once.

HOTEL BUILDING BURNED.

Philadelphia, May 22.—Fire of an unknown origin early today destroyed the Oxford hotel building, including Oxford hall, once famous for political meetings held there and the Oxford stables. The loss is estimated at $100,000, partly insured. Policeman Robman was injured while rescuing horses from the burning stables. The hotel was unoccupied. The fire started in the stables, where twenty-five horses were stalled. All the animals were saved. The Oxford market, adjoining the hotel, was slightly damaged.

RAN ON THE ROCKS

AMERICAN LINER PARIS IN A BAD PLIGHT.

DISASTER AT THE MANACLES.

WENT ON THE REEFS IN THE DARKNESS.

NO PASSENGERS WERE LOST.

IS RESTING EASILY IN A QUIET SEA.

Coverack, Cornwall, May 22.—The cargo of the American line steamer Paris, which ran on the rocks off Lowland's Point, not far from here, at 1 o'clock Sunday morning, while on her way from Southampton, by way of Cherbourg to New York, is being rapidly discharged from the two forward hatches. No attempt will be made to float the Paris this afternoon. The weather remains beautifully fine, the wind is off shore and the sea is smooth.

Salvage tugs from Liverpool will arrive at the scene of the wreck tonight. It is believed the next attempt to float the Paris will be made on Wednesday. Everything at present seems favorable to success.

WOULD NOT EMBARK.

Falmouth, Cornwall, May 22.—The North German Lloyd steamer Bremen, which left Southampton on Saturday, arrived here this morning under instructions to embark for New York the saloon passengers of the Paris, which is ashore near Coverack. But the passengers are not ready to proceed on their voyage, many of them suffering from shock, so the Bremen continued on her passage westward.

Quite a fleet of excursion steamers are taking holiday makers from the port and Plymouth to see the wreck.

Many passengers of the Paris took the train for Southampton this morning, where they will await the sailing of the North German Lloyd steamer Kaiser Wilhelm der Grosse, which is scheduled to sail from Bremen for New York on May 23, touching at Southampton on the following day.

STORY OF THE MISHAP.

The Paris, Captain Watkins, from Southampton and Cherbourg for New York, struck on an outlying ridge of the Manacles Sunday morning at a point half a mile from where the wrecked Atlantic transport liner Mohegan lies, and five miles from Falmouth. The Paris, which sailed from Southampton Saturday, called at Cherbourg, France, and picked up fifty passengers. She left Cherbourg at 6 o'clock Saturday evening. Soon after 1 o'clock Sunday morning, at high tide and in a dense fog, she ran ashore. From the first there was no danger. Lifeboats and tugs were soon literally swarming around the vessel to render assistance. A majority of the passengers, who numbered 380, were brought to Falmouth, where they obtained lodgings for the night.

Captain Watkins reported that his ship was lying comfortably in smooth water and that there was no occasion for any alarmist reports. He reported the passengers and crew all well.

The first intimation of the vessel's striking the rocks was a slight grating sound, which was followed by a second and more pronounced shock. The lookout shouted that there was something looming ahead, but before there was time to reverse the engines the ship had gone on the rocks, 200 yards from the shore.

Captain Watkins had his gig lowered and rode ashore in order to ascertain his whereabouts and to telegraph to Falmouth for tugs to assist his ship. In the meantime rockets were sent up and signal guns were fired.

When dawn broke everybody on board was relieved to find the shore on one side and lifeboats lying near by on the other. The vessel lay with her head to the southwest, the reversing of her engines having put her broadside on the rocks. Happily the sea was smooth and there was no wind. Otherwise there would probably be a different tale to tell.

The dangers of the vicinity were strikingly brought home to the passengers and crew by the masts of the wrecked steamer Mohegan, which are sticking out of the water, and by a miserable bell buoy, which tolls almost constantly, as though sounding a death knell.

When Captain Watkins returned from his trip ashore he learned that there was already considerable water in the hold and the tugs which had arrived stood by ready for any emergency. All the passengers were transferred to the tug Dragon, but beyond the clothes they wore they carried nothing with them. They were landed at Falmouth shortly after 7 o'clock, the local agent of the American line meeting them and providing them with every care and quartering them at the various hotels and the Sailors' home.

The sea was perfectly calm and the only discomfort that the passengers experienced was caused by the slight rain that was falling at the time. Owing to the calmness of the sea the boats could be managed with entire safety.

Perfect order prevailed aboard the vessel. Captain Watkins stood on the bridge giving orders and his perfect self-possession and calmness of demeanor had a reassuring effect upon the passengers. In accordance with the instructions of the captain the women and children were the first to be taken off the ship. Such perfect order was maintained that a passenger described the scene as simply a slow procession of women and children walking in single file to the boats.

It is said that a Falmouth pilot boat showed a warning signal to the Paris, telling the captain that he would put the vessel on top of the Mohegan if he did not alter the course of the ship. The warning, however, came too late and the Paris struck on a ridge to the westward of the Manacles. It is suggested that as this is only their second trip from Cherbourg the officers of the Paris were not familiar with the course.

HAD AN EVENTFUL HISTORY.

New York, May 22.—The Paris, although it had been afloat less than eight years, had had an eventful history. First as the City of Paris it made records for speed in ocean crossing which were sources of pride to its owners.

Then, rechristened as the Paris, it flew the stars and stripes and sailed under American papers. Transferred to the government in time of war, it became a cruiser, known as the Yale, and able to render the government the greatest of service as scout and dispatch boat. Finally, almost immediately upon its return into passenger service, after having been completely refitted, it fell a victim to what seems to have been the merest accident off the Cornish coast.

The last regular trip made by the Paris, just prior to the breaking out of the war, was perhaps the most exciting of which her crew can tell. Loaded with a valuable cargo of guns and ammunition, the boat presented a rich prize to the Spaniards, and so little was known of the weakness of the Spanish fleet that great fear was felt that an effort would be made to capture the Paris on her way home. For that reason Captain Watkins steered out of his usual course and spent a longer time than usual in the passage. The arrival in New York was the signal for a lively celebration.

While in government service the Yale brought an income of $2,500 a day to her owners. On August 31st she was released by the government and the work of refitting her for passenger service was quickly completed. The past spring the Yale, now with her former name, Paris, was sent back into Cuban waters with a party of excursionists on board, among them being John Sherman.

LITTLE ONE IS BADLY BURNED.

CLOTHING CAUGHT FROM A BONFIRE SATURDAY.

Infant Son of Mr. and Mrs. A. C. Pepe Got Hold of Matches With Painful Results.

Robert, the little son of Mr. and Mrs. A. C. Pepe, of 254 West Washington street, was frightfully burned about the head, arm and hand at its home Saturday afternoon. The boy is about 3½ years of age, and while playing about the house climbed upon a pantry shelf and, unnoticed by the family, procured some matches which were placed there for safe-keeping. The little one went out into the yard back of the residence and with the match and some newspapers started a bonfire. As the flames blazed up they caught in the little one's clothing and before assistance could reach him he was very severely burned. The fire was extinguished by rolling the child in the grass, and Dr. Rosenthal attended his injuries. Though they are severe, Dr. Rosenthal has hopes of his recovery, though the outcome cannot be foretold with certainty.

A. C. Pepe, the father of the little one, is connected with the Dittoe grocery.

On Saturday morning at Lakeside park the W. E. A. A. base ball team defeated the East Main street team by a score of 10 to 9. Batteries for W. E. A. A., Bash and Stemen, and for the East Mains, Dittoe, Clausmeyer and Springer.

RACE QUESTIONS

COME UP IN PRESBYTERIAN ASSEMBLY.

COLORED DELEGATE'S POINT.

WAS SENT BY A PRESBYTERY LARGELY WHITE.

OUTRAGES ARE DENOUNCED

BOOKER T. WASHINGTON AND HIS INSTITUTE.

Minneapolis, Minn., May 22.—Before the Presbyterian general assembly today Rev. W. H. Franklin, a colored minister of Rogerville, Tenn., read an excerpt from a local paper which said that no colored member of the assembly has yet spoken in the debates on account of the fear inspired by the recent outrages in the south, not knowing but they might be held to painful account when they return.

Mr. Franklin stated that the article was without foundation and that in justice to the colored members of the assembly and the people of presbyteries which had returned colored commissioners, there should be a public denial.

Mr. Franklin explained that in the presbyteries of Holstein and French Broad from which he comes there are twenty-four white and five colored ministers and 6,000 white and 1,000 colored communicants, yet this overwhelming white majority had sent him as one of the two ministers who represent them.

Dr. Franklin then offered resolutions refuting the published statement and explaining that the colored commissioners were not restrained from debate because of fear.

Synodical committees were announced and the report of the committee of freedmen was read.

Rev. Graham C. Campbell, of Burkeville, Va., warned Presbyterians against giving money to Booker T. Washington. He said Mr. Washington was doing a grand work. But who would carry it on, he asked, after Washington had gone. In many regions it had been found that Mr. Washington's young men had taken from Presbyterians all their money for the freedmen's board.

The board could spend the money to just as good advantage as Mr. Washington and was a perpetual organization.

THE DAWSON CONFLAGRATION

THE KLONDIKE METROPOLIS SWEPT BY FIRE.

Flames Wipe Out Greater Part of the Town and the Loss Runs Into Millions.

Victoria, B. C., May 22.—No further details of the Dawson fire, April 26th, have been received. The only accident known to have occurred befell a fireman, who was severely hurt about the head by a blazing log which was blown from a burning building. It is stated that the woman who upset the lamp which caused the catastrophe and other occupants of the house have been arrested and may be severely dealt with. A report is also current that only the bank of British North America of the chartered financial institutions were destroyed, and not both it and the bank of Commerce.

Riley, Toklas and Hume, the men who brought out the news of the fire, are reported to have collected hundreds and even thousands of dollars as private mail carriers for the prompt delivery of the communications of which they were the bearers. One of these was addressed to the inspector of the bank of British North America and considerably reduces the amount of the bank's loss by the fire.

It is understood that the record of the bank notes destroyed was consumed with them, but it is nevertheless quite possible that this will not mean lost money.

Three quarters of the entire area of Dawson was laid waste by fire. In all 111 buildings of all sorts and kinds, large and small, were destroyed, nothing being left to show where they stood but heaps of debris when the fire had burned itself out. The flames originated, as have the majority of the fires that have taken place at the mining capital, by the upsetting of a lamp in the midst of a drunken debauch.

The loss is estimated all the way from $1,500,000 to $2,000,000, based on Klondike valuations. There was practically no insurance.

HURT IN A RUNAWAY.

Fred Lang, of 304 West Washington street, was badly injured on Saturday evening in a runaway. His horse became frightened near the corner of Wayne and Calhoun streets and dashed south. When opposite Chestnut street the front wheels caught in the street car tracks, tearing them off and throwing Mr. Lang out. He was taken to his home and Dr. Miller attended his injuries. One of his arms was fractured, a thumb broken, his shoulder dislocated and his body badly bruised.

EDNA HAWKS IS NOW IN HOCK.

LOCATED BY CAPTAIN DASELER IN A BAGNIO.

She Escaped From the Woman's Reformatory Eighteen Months Ago—Home in Muncie.

Sunday evening at 9 o'clock Captain Daseler arrested Edna Hawks, alias Woods, alias Stevens, alias several other names, at Della Rogers' house of ill-fame on Pearl street. A letter received from the superintendent of the Woman's reformatory at Indianapolis stated that among the girls who escaped from the reformatory eighteen months ago was Edna Hawks, of Muncie, and it was believed that she was in Fort Wayne.

Captain Daseler had information which led him to believe that Edna Woods, an inmate at Della Rogers' place, was the girl wanted, and he went there and arrested her. She denied very strongly that she was the person wanted, but finally, after being locked up several hours, admitted her identity.

The girl is a handsome brunette and is a member of a very respectable family in Muncie. She was sent to the reformatory three years ago, and was one of a party of several women who made their escape, but until recently the authorities could not locate her. An officer is expected this evening to take the girl back to Indianapolis.

THE RACE OF THE BIRDS.

The first of the series of pigeon races was held yesterday, it being the 100 mile race from Lafayette to Geneva and Lafayette to Fort Wayne. Thirty-eight birds were released at Lafayette yesterday morning at 6:15 a. m. Of these twenty were owned by Dr. Carl Schilling, fifteen by Henry Beach, of Fort Wayne, and three by W. B. Hale, of Geneva. The first bird to arrive home was one owned by W. B. Hale, at Geneva, and the time was immediately telegraphed to this city. The Fort Wayne birds then began arriving and in the following order: First, Hale; second and third, Beach; fourth to eighth, Schilling. Mr. Hale received the first prize, which was donated by Mr. Bartholomew, of New Jersey, for the first bird, as well as the special prize for the highest per centage of birds first in. The special prize was a box of cigars donated by Frank Gruber. Mr. Beach received the second premium offered by Dr. Schilling and the third, offered by Mr. Hale. The second race will be held next Saturday from Bement, Ill., to Fort Wayne, in which there will be more birds than participated in yesterday's race. Owing to several losses of birds while in training, C. F. Rehling and C. G. Pape did not race their pigeons yesterday.

PLANTS FOR THE PARKS.

A large force of workmen, under Superintendent Goers, are engaged in putting in plants in the different parks of the city. Owing to the cool weather, only the most hardy plants are being put in, but it is expected that the rest will be planted in a short time. There are 100,000 plants to be distributed among the parks, Mr. Goers having raised many more this year than in any preceding year.

BIG FIRE IN BROOKLYN.

New York, May 22.—Fire of unknown origin started today in a building in Freeman street, Brooklyn, used by Vells Brothers as a planing mill, and spread rapidly until nearly an entire block was destroyed. The total loss is estimated at $350,000. The flames extended to Eagle and Kent streets, destroying a number of dwellings. The property destroyed included four six-stories and a planing mill.

Ed. Biddle is visiting with his parents on Ewing street, for a few days. Mr. Biddle spent several months in Cuba with the army of occupation and was stationed for some time in a small town near Havana.

ALL NOT SMOOTH.

SOME DIFFICULTIES AT THE PEACE MEETING.

CHOICE OF OFFICERS HARD.

ENEMIES OF PEACE MAKE UP FALSE STORIES.

GERMANY IS MISREPRESENTED

ANOTHER SESSION TO BE HELD TUSDAY.

The Hague, May 22.—The disarmament committee of the peace conference meets at 10 o'clock on Tuesday morning; the committee on the laws of warfare meets during the afternoon of the same day, and the committee on arbitration meets on Wednesday. The first session of each committee will be devoted to the election of officers.

The chiefs of the delegations have had frequent conferences with the view of arriving at an agreement regarding the choice of officers of the committees. But apparently many difficulties have arisen. As it has been finally settled, many false and exaggerated reports have been circulated regarding these hitches. For instance, it has been said that Count von Munster, the German ambassador at Paris, and head of the German delegation, would withdraw from the conference. Such stories must be received with caution, as persons hostile to the acts of the conference have been busily engaged in spreading distrust. The story about Count von Munster probably arose from the fact that his name does not appear as a member of any of the committees, while all the other chiefs of delegations have joined one or more committees. But, it is pointed out that delegates and alternate members of a committee are privileged to attend its sessions and participate in the discussions.

HAVE NO NEWS OF A FIGHT.

DETROIT'S REPORTED BATTLE DISCOUNTED.

Washington Officials Have No Advices of Extreme Measures in the Bluefields.

Washington, May 22.—The navy department has had no report from the captain of the Detroit of any difficulty with the Nicaraguan officials or of any collision with the Nicaraugan gungoat San Jacinto. The Detroit arrived at Bluefields May 11th, and since that date no report has come from her. She was to take on board there the body of the late General McCauley for transportation to the United States.

As the latest telegraphic and mail services from the American officials at Bluefields and other points in Nicarauga contained nothing to indicate any serious friction between the United States and Nicaraugan officials, Secretary Long said that he was not inclined to credit the report that a United States ship had been called upon to resort to extreme measures. Secretary Hay also said that no word had been received at the state department on the subject, and, therefore, he was not prepared to believe that anything of the kind had occurred.

The latest advices from Nicaragua were to the effect that negotiations for a settlement of the recent customs differences were progressing with every indication of an amicable settlement.

AS SEWER OUTLET.

The Fort Wayne officials have received word that Auburn has decided to build eleven miles of sewers and as an outlet will use Cedar Creek, which stream flows through the northern part of Allen county and empties into the St. Joe river. The water of the St. Joe has for years been considered the purest in this vicinity and it is feared that the sewage from Auburn will so pollute the water that it will be unfit for any use. What action the Fort Wayne authorities will take has not been determined. Bids for the Auburn work were opened Saturday and Joseph Derheimer, of this city, was one of the lowest bidders.

Miss Emma Eckles, who has been at Hope hospital for the past three weeks undergoing treatment, has returned to her home at 59 Riverside avenue.

A LOVELY WOMAN

is the fairest flower in the garden of humanity. Every woman may be lovely after her own style, with sparkling eyes and rosy cheeks, and with every line of beauty fully developed.

Pabst Malt Extract, The "Best" Tonic, will bring out her beauty, fill in the hollows, cover up the bones and angles, round out the curves, and develop all her lines of beauty. It is a flesh and tissue builder that will make any woman plump and round and rosy, as she was meant to be. Try it yourself and your mirror will show you a pleasant surprise.

The result of yesterday's game between Fort Wayne and Youngstown is easily explained. Bill Carney pitched gilt-edged ball and Fort Wayne's new twirler, Guese, was batted when hits meant runs.

There was a large crowd at the ball park, probably the largest that has ever seen a game in this city in years, and while they all wanted the home team to win, none was there who was not satisfied that Carney deserved victory. The star twirler of the Youngstowns stood in the box, smiled and sent the sphere over the plate in such a manner as to puzzle the oldest heads on the team. With Guese in the box the "fans" had hoped to see a closer game, but the new twirler could not fool Truby's Giants and they kept continually hitting the ball and in three innings bunched enough hits to earn six of their seven runs. The support of both twirlers was first-class, although Letcher was slow in fielding two singles batted to center field.

The story of Fort Wayne's run-getting is told easily. Jack Glasscock, the first batter up in the ninth inning, hit the second ball pitched over the left field fence for a home run.

The visitors' first run was scored in the second inning after two men were out. Ganzel hit a liner against the center field bank for two bases and scored on Berte's single. Berte went out from Hollingsworth to Flood on Latimer's grounder.

In the fourth the Giants scored three more. Connors went to first on balls and stole second, scoring on Pender's two-bagger. Ganzell flied out to Miller and Pender scored on Berte's second single. The Youngstown short stop went to third on Latimer's single and scored on Carney's hit, which the star twirler attempted to stretch into a two-bagger and was out at second.

Three more runs were earned in the seventh inning. After one was out Van Buren, McCredle and Connors made two-base hits and Truby and Pender singled, three runs resulting. Score.

Home run—Glasscock.

Stolen bases—Glasscock, Bergen, Van Buren, Connors, Latimer.

Left on bases—Fort Wayne, 8; Youngstown, 4.

First base on balls—Off Guese, 2; off Carney, 5.

Struck out—By Guese, 2; by Carney, 2.

Double plays—Hollingsworth to Flood to Glasscock.

Umpire—Ebright.

Time—1:55.

Attendance—2,100.

SATURDAY'S GAME.

The last game of the Wheeling series was a heart breaker and not until the last Wheelingite was retired in the ninth was there a certainty as to which club would win. In the ninth Babb was about to cross the plate with the winning run, as he supposed, but when he reached the rubber Bergen met him with the ball, which had been fielded in by Belden on one of the prettiest throws of the season. Babb knew better than to try and score, but Lytle was on the coachers' line and made him try it. Score:

Ft Wayne. 0 0 1 0 0 3 0 0 0— 4
Wheeling . 1 0 0 2 0 0 0 0 0— 3

Batteries—Foreman and Bergen; Poole and Hunt. Base hits—Fort Wayne, 7; Wheeling, 8. Errors—Fort Wayne, 3; Wheeling, 0.

OTHER INTER-STATE GAMES.

DAYTON, 3-0; MANSFIELD, 1-1.

Dayton, O., May 22.—Mansfield and Dayton played a "double header" and broke even on results. Both of the games were hard battles, the first one being ten innings. The second one was a pitchers' battle and was won in the last inning, like the first game. Score for the first game:

Dayton . 1 0 0 0 0 0 0 0 0 2— 3
M'field . 0 0 0 1 0 0 0 0 0 0— 1

Hits—Dayton, 10; Mansfield, 6. Errors—Dayton, 2; Mansfield, 0. Batteries—Dayton, Watkins and Donahue; Mansfield, Miller and Belt. Time of game—1:50. Umpire—Colgan.

Second game:

Mansfield . 0 0 0 0 0 0 0 0 1— 1
Dayton . . . 0 0 0 0 0 0 0 0 0— 0

Hits—Mansfield, 4; Dayton, 4. Errors—Mansfield, 3; Dayton, 4. Batteries—Mansfield, Heiberger and Donahue; Dayton, Hackett, Law and Belt. Time of game—2:00. Umpire—Colgan.

TOLEDO, 9; NEW CASTLE, 5.

Toledo, O., May 22.—Toledo won an uninteresting victory from the New Castle team before a large crowd. Minnehan and Smith were liberal with their passes, eleven men being walked to first base. All but one of Toledo's runs were traceable to these gifts. Score:

Toledo . . . . 2 1 0 5 0 0 0 1 0— 9
N. Castle. . 1 0 3 0 1 0 0 0 0— 5

Hits—Toledo, 11; New Castle, 5. Errors—Toledo, 5; New Castle, 3. Batteries—Ewing and Arthur; Minnehan, Smith and Barclay.

GRAND RAPIDS, 6; WHEELING, 0.

Grand Rapids, Mich., May 22.—Wheeling was shut out through inability to hit Altrock effectively. Their six hits were none better than singles and were widely scattered. The score:

G. Rapids. 0 0 0 2 2 0 2 0 0— 6
Wheeling . 0 0 0 0 0 0 0 0 0— 0

Hits—Grand Rapids, 9; Wheeling, 6. Errors—Grand Rapids, 1; Wheeling, 1. Batteries—Grand Rapids, Altrock and Cote; Wheeling, Young and Twineham.

PLAYERS RELEASED.

The Fort Wayne management has decided to carry only twelve players this season and the weeding out process commenced this morning when Manager Glasscock was instructed to release Kelb, Whissen, Brodie and Zinram. Cy. Swaim has been signed and is expected to arrive in the city from Milwaukee this evening. The team had eight twirlers, including Herr, and they could not all be carried, and it was decided to retain Reiman, Foreman, Guese and Swaim. Reiman has demonstrated that he is able to hold his own this season, and Foreman made a fine showing the first game. The first exhibition by Guese was not high class, and Swaim has not done well with Milwaukee, having lost every game he pitched, according to yesterday's dispatches. Kelb pitched two fine games here, but was batted hard in the Toledo game. The surprise was the release of Zinram, who had been hiting above .300 and was undoubtedly one of the three fastest runners on the team. His back-stopping was good, but the management seem to be afraid of his arm. Bergen will do all the catching, and if he should be injured Miller will go behind the bat. Hollingsworth is a pretty fair catcher, too. Some of the releases will not be relished by patrons of the game, but if the team plays good ball the public will go to see the games, and the management is responsible only to themselves if any mistakes are made in making changes. Eight of the twelve players retained are former Western leaguers, Bergen, Belden, Reiman and Flood being the only players who have not played in Ben Johnson's league.

NOTES OF THE GAME.

Guess Jack Glasscock told only the truth when he said that Will Carney was the best pitcher in the Inter-State league.

Every man in the press box believed that Latimer kicked the ball instead of Guese when the latter was called out for interfering with the ball.

In Saturday's game Belden and Hollingsworth made two-baggers and Letcher hit for the first three-bagger of the season on the home grounds.

Guese had plenty of control yesterday, but his curves did not fool the Giants. He remarked once as he came back to the bench, "They hit anything."

New Castle has a much stronger team than Youngstown except that Carney is a better twirler than any pitcher on Manager Bright's staff of slab artists.

Foreman made two balks and Poole one in Saturday's game. The "Brownie" was effective when men were on bases and promises to be the star twirler of the team.

Saturday's Interstate games resulted as follows: Dayton, 8; Mansfield, 1; Grand Rapids, 3; New Castle, 2; Toledo, 9; Youngstown, 1. The National scores were. Cincinnati, 8; Brooklyn, 1; Baltimore, 9; Chicago, 5; Cleveland, 10, Philadelphia, 4; Washington, 7; Pittsburg, 6. Rain prevented games at St. Louis and Louisville.

The single and married men of the Chair Warmers played a game of base ball yesterday at Wagner's plat. The game resulted in a victory for the married men by a score of 14 to 10. Batteries, S. C. W.'s, Albright and Lacy; M. C. W.'s, Miller and Trowbridge. One of the main features of the game was the twirling of Miller, for the married men. Twenty-six errors were made by the singles and sixteen by the married men.

THE CITY LEAGUE

The games in the City league yesterday resulted as follows:

South Waynes, 25; Newsboys, 1. Batteries—Farnan and Stevens; McGuire and Tieman.

Nebraska, 13; Broadways, 12. Batteries—Johnson and Craig; Hilliker and Smith. Second game—Nebraskas, 9; Broadways, 3. Batteries—Johnson and Craig; Ramsey and Keiler.

The Sports won both games from the Blue Rocks. Score, first game—Sports, 20; Blue Rocks, 16. Batteries—Hildinger and Perrey; Ertel and Cook. Score, second game—Sports, 19; Blue Rocks, 11. Batteries—Redman and Perrey; Miller, Wendel and Horstman.

The Ponies and the Royals broke even, the latter wining the first game and the Ponies the second. Score, first game—Royals, 4; Ponies, 2. Batteries—Tolan and Eggemann; Shoyer and Oddou. Score, second game—Ponies, 7; Royals, 5. Lauer and Crance; Kemp and Eggemann.

DEATH'S HARVEST OF A DAY.

MRS. SUSAN L. FERGUSON'S LIFE ENDS.

Was Stricken With Paralysis and Lived But a Short Time—

The Other Deaths.

FERGUSON.

Mrs. Susan L. Ferguson, wife of County Commissioner M. A. Ferguson, died early this morning at her home, 20 Spy Run avenue, from a stroke of paralysis received some hours before. Mrs. Ferguson was one of the most esteemed residents of this city, and her death will occasion a wide feeling of profound sorrow. She had been in poor health for some time but yesterday seemed to be feeling better than usual, and went to the kitchen last evening to assist in preparing the evening meal. About 6:30 o'clock she was stricken with paralysis, and passed away at 1:30 this morning.

Susan L. (Hopson) Ferguson was born at St. Marys, Ohio, October 1, 1839, and was united in marriage to M. A. Ferguson August 27, 1857. They resided at Delphos, Ohio, for a time, and about fifteen years ago removed to Allen county, locating on a farm about four miles north of this city. Here they lived until last fall, when they took up their residence in Fort Wayne. Mrs. Ferguson was nearly sixty years of age, and was the mother of ten children—nine of whom, with the aged husband, survive her. The children are Mrs. Henrietta Reul, of Delphos, Ohio; Mrs. Mary Fritz, Mrs. Lucy Robyn and Mrs. Grace Eidman, of St. Louis; Walter Ferguson, of Whitley county; Anna, John and Gus Ferguson, of this city, and M. A. Ferguson, jr., of Eaton, Ind. The funeral services will occur at the residence on Thursday afternoon. Further announcement will be made later.

GUNDER

Mrs. Sarah A. Gunder, wife of George Gunder, died at 1:30 o'clock this morning from consumption at her home, 223 Wells street, after an extended illness. Mrs. Gunder was 60 years of age, and besides her husband leaves four children—Mrs. Mary Gloyd, and Henry, Emanuel and Charles Gunder. The funeral announcement will be made later.

LEIZE.

Christian G. Leize died quite suddenly at his home, 11 Esmond street, at 9:30 o'clock Saturday night from paralysis of the heart. He had been in poor health for some time and after eating supper Saturday evening complained of difficulty in breathing. He retired at 8 o'clock and his wife followed an hour later. At that time Mr. Leize was awake and in response to his wife's inquiry as to how he was feeling he replied that he had pains in his chest and could hardly breathe. After giving her husband all the assistance possible Mrs. Leize dropped asleep, but was awakened half an hour later by the heavy breathing of her husband. She arose hastily and summoned neighbors and physicians, but before they arrived Mr. Leize was dead. Coroner Barnett was notified and made an investigation, attributing the death to paralysis of the heart. Mr. Leize was 50 years of age and a native of Germany. He was employed in the Koehler brickyard. Besides his wife, several children survive him. The funeral services will be held from the residence, at 2 o'clock Tuesday afternoon.

BARNER.

Mrs. Philipena Barner, wife of Charles Barner, died at 6 o'clock Sunday morning at the family home, 155 Montgomery street, from a complication of diseases. A post mortem conducted Sunday afternoon by Dr. Drayer, assisted by Dr. Duemling and Dr. Bower, disclosed a badly diseased condition of the liver and intestines. Mrs. Barner had been a resident of Fort Wayne for many years. She was born in Germany fifty-nine years ago, and besides her husband leaves four children—Mrs. H. J. Bradley, Mrs. H. C. Stites, Miss Emma Barner and Henry Barner. She was a sister of Mrs. Henry Stellhorn. The funeral will be held Tuesday afternoon at 1:30 from the residence and at 2 o'clock from the St. Paul's German Lutheran church. The pall bearers will be William Stellhorn, Martin Foellinger, Louis Niemeyer, Jeffrey Lee, George Wilde and Adolph Hagist.

TITUS.

Mrs. Louisa Titus, wife of Theodore Titus, the well-known Pennsylvania engineer, died at 9 o'clock this morning at her home, 130 Buchanan street, at the age of 59 years. Mrs. Titus has been in poor health for some time, and a few weeks ago sustained a fall, breaking her leg. Her frail health gave way still more under the shock of the accident, and she passed away this morning. Mrs. Titus has been a resident of this city many years. Her husband and three children survive her. The children are Mrs. Mamie Patterson, Miss Grace Titus and Charles Titus, who is a Nickel Plate engineer. The funeral arrangements will be announced later.

GLASS.

Mrs. Harriet Waters, of 104 East Wayne street, today received the sad intelligence of the death of her mother, Mrs. Nancy Glass, which occurred at her home near Golden City, Mo. Mrs. Glass was in the 89th year and was born in Lancaster, O. She came to Fort Wayne in 1835, and resided here until 1878. Her first husband died in 1845. She was the widow of James Glass, near Ossian, who died in 1865. Mrs. Glass went to Missouri more than twenty years ago. Many of the older residents of this city will remember her.

GERDES.

Henry Gerdes died Sunday night at the hospital from pneumonia, from which he had been suffering for some days. Mr. Gerdes was 68 years of age. The remains were removed to the home of his son-in-law, Matthias Bugert, 88 Home avenue. The funeral services will be held Tuesday morning at 9 o'clock from St. Mary's church.

BROWN BOUND OVER.

Joe Brown had his preliminary hearing on a charge of larceny before Mayor Scherer this morning. Hiram Watson, his victim, was brought over from jail to testify, but did not seem to remember much about the case. Another old soldier, however, saw Watson give Brown a $5 bill and then saw the change handed back for $1. John Langard testified that he changed a $5 bill for Brown and this conclusive evidence led the mayor to bind him over, fixing bond at $100.

Doctors Coming --TO-- Fort Wayne.

A staff of eminent physicians and surgeons from the British Medical Institute have, at the urgent solicitation of a large number of our representative citizens, decided to establish a permanent branch of the institute in this city. Quarters have already been secured in the Fruit House block, rooms 6 and 7. The office will be open and ready to receive patients next Wednesday morning.

These eminent gentlemen have decided to give their services entirely free for three months (medicine excepted) to all invalids who call upon them for treatment between now and July 1st. These services consist not only of consultation, examination and advice, but also of all minor surgical operations.

The object of pursuing this course is to become rapidly and personally acquainted with the sick and afflicted, and under no conditions will any charge whatever be made for any services rendered for three months, to all who call before July 1st. Therefore, the most humble in circumstances can avail themselves of the services of these eminent physicians.

The doctors treat all forms of disease and deformities, and guarantee a cure in every case they undertake. At the first interview a thorough examination is made, and, if incurable, you are frankly and kindly told so, and advised against spending your money for useless treatment.

Male and female weakness, catarrh and catarrhal deafness, also ruptures and all diseases of the rectum are positively cured by their new treatment.

Office hours from 9 a. m. to 8 p. m. No Sunday hours.

LOCAL NEWS.

Born, to Mr. and Mrs. W. C. Patterson, of 134 Buchanan street—a son.

G. H. Patterson, of Angola, was among the Fort Wayne visitors today.

Chas. Sshooley was sent to jail by 'Squire France for cruelty to animals.

Ad. Link, who has been ill from typhoid fever for some time, is now convalescent.

Arthur H. Dougall, of Boston, arrived in the city last evening for a visit with friends.

Miss O. Geerken, who was visiting friends in Churubusco, arrived home last evening.

There are already nineteen entries for the Randall road race to be ridden on Memorial day.

Mrs. Cox, of Florida, is the guest of Mr. and Mrs. Milo H. Sechler, of South Calhoun street.

Mesdames Soest and William Scherer have gone to Soest Station, nine miles south on the Grand Rapids road, to spend a week with friends.

Beginning Saturday young ladies employed in the Worch Garment factory are given a half holiday on Saturdays during the summer months.

Mrs. John Kline and Mrs. Henry Kline, of Huntington, spent Sunday and today in Fort Wayne with relatives. The ladies drove up in a buggy Saturday.

C. F. Regedanz is erecting a building on South Hanna street and will open a drug store there in about a month. Mr. Regedanz has been connected with the Meyer drug store for some years.

A pleasant surprise party was tendered Mrs. P. O'Ryan Friday night at the home of her son, Councilman John O'Ryan, on Baker street. About fifty guests enjoyed progressive pedro and dancing and a delicious lunch was served.

Eugene Thayer, of 502 South Hanna street, an employe of the DeWald Dry Goods Co., had his foot badly crushed between the elevator and the floor on Saturday. He was removed to his home, where Dr. Miller attended his injuries.

A three-year-old son of Henry App met with a severe accident on Saturday. He was playing with a sharp pointed stick, when he fell on the pavement, the stick entering the mouth and penetrating the roof of the mouth. Dr. E. J. McOscar attended the child.

John Shilts and two daughters and Mrs. George Wymer, of Decatur, Ind., arrived in the city Saturday morning and will be the guests of Mr. and Mrs. William Schotemeyer for a few days. The visitors are en route to Bunker Hill, Kas., where they expect to reside in the future.

A new case of diphtheria has developed at the home of George S. Hail, 106 Barr street. A little daughter is affected with the disease, and the house has been quarantined. This is the fourth case in the house during the past few months, other children having it in the early part of the spring.

On Saturday Dr. W. M. Enslen amputated the great toe from one of the feet of Joseph Lee, an inmate of the county asylum. The member was in a very painful and threatening condition, the result of diseased tissue. The patient, who is a citizen of Cedar Creek township, is getting along nicely.

Mrs. F. B. Hompsher, assisted by Mrs. C. O. Troxwell and Mrs. John Stinman, very pleasantly entertained the members of the Grand Fraternity Friday evening at her home on South Calhoun street. The house was beautifully decorated with ferns and carnations. The tables were done in pink, sweet peas being the decorations.

Mrs. Alex Cour left today for Chicago to join her husband, who has a position in that city. Mrs. Cour was a prominent worker in the Eastside Baptist mission and last evening the ladies of that organization tendered her a very pleasant surprise party. Mrs. Cour was presented with some handsome silver knives, forks and spoons as a slight token of the esteem in which she is held.

Mr. and Mrs. Charles Pennington, of Jamestown, Ohio, have announced the engagement of their daughter, Mary, to William S. Turner, of this city. The wedding will occur at the home of the bride on June 14th. Miss Pennington is a niece of Mrs. James A. Armstrong and a charming young lady. Mr. Turner is a member of the firm of J. A. Armstrong & Co. and is one of Fort Wayne's most popular young business men.

Dr. J. W. Younge has received a very handsome gold medal which he will present to the model cadet at Culver Military academy this year. The medal is a most beautiful one of solid gold, weighing two ounces, and is valued at $50. It is in the form of a star, the points of which support a gold circlet with the inscription "Culver Military Academy, 1899," inlaid in blue enamel. The reverse side is inscribed "A Model Cadet." The badge is suspended from a gold cross bar with red, white and blue ribbon, and the whole forms an emblem which the fortunate recipient, whoever he may be, will value highly.

Mrs. G. E. Bursley is at home from Terre Haute.

Dr. E. F. Wagner has returned from a trip to Cleveland.

Mrs. M. G. Brown is spending this week with Toledo friends.

Miss Ida M. Burns has been visiting in Huntington for several days.

Mrs. George Potter left for Ashland, Ohio, this morning, to visit her old home.

Mrs. J. M. Liggett has returned from Huntington, where she visited friends for a week.

Silas Jennison went to Detroit yesterday for a visit with his parents and will be absent a week.

Mrs. Julia Randall and daughters and son, Fay Randall, left today for New York to remain several months.

Miss Rachel Hackett, who has been visiting relatives in the city for several months, left for Pennsylvania this morning.

Louis Merz has purchased property at the corner of Calhoun and Williams streets and will soon erect some modern flats there.

Corporal Ed Biddle, until recently a member of the 202d New York infantry, is visiting friends in the city. Fort Wayne was formerly Mr. Biddle's home.

The Wayne Tent band has been engaged for Memorial day. They have ordered a lot of special music for memorial services, and will appear for the first time in their new uniforms.

The W. C. T. U. will hold a meeting Thursday afternoon at 2:30 at the residence of Mrs. Carina Banning, 181 Clinton street. Miss Downey, the evangelist, will be present and address the meeting.

The last meeting of the Ladies' Reading club will be held tomorrow afternoon at 2:30 at the ohme of Mrs. John Jacobs, on Spy Run avenue. The reports of the delegates to the Indiana Union of Literary clubs will be read.

It has been the boast of Klondikers that Dawson City had money to burn, but no one suspected that it was kept to feed a bonfire.

It is not too late for Senator McMillan and Secretary Alger to send delegates to the peace congress. It might result in arbitration if not in a complete disarmament.

When Admiral Dewey runs into the first of the $100-a-plate dinners in New York he will wish he had tried to get in home by the back door as he had a chance to do.

One of the best evidences that the czar is in earnest in his various attempts to benefit humanity is his purpose to modify greatly, if not to abolish altogether, the exile system that is so dark a disgrace to the Russian empire.

The mayor and superintendent of police have announced that they will not permit the slot-machine gambling evil to again break out in Fort Wayne. It is to be hoped that they will be vigilant and vigorous in this determination. Of all the forms of the gambling evil the slot machine is most insidious and the most difficult to deal with. It teaches boys to gamble and it is no great step from the slot machine to the poker table.

A few cities in the United States have tree-planting associations composed of private individuals, and they can be credited with good work. One city, Minneapolis, gives municipal encouragement to tree-planting, and the beauty of its residence streets is noted by visitors. In Paris the shade trees have long been looked after by a systematic department. Along the boulevards and avenues are 86,400 trees, all registered and constantly inspected. Plane trees are the most numerous, though there are many chestnuts and elms. The public seats under them number 8,300. Their maintenance costs $65,000 a year. Paris would not part with them for any money.

L. E. Quigg, chairman of the republican county committee of New York, and one of Senator Platt's trusted lieutenants, has just declared in a speech to his committee that the independents are masters of the situation, and should be allowed to nominate men who are "reasonably republican" for the local elections of next November. Inasmuch as Mr. Quigg is very close to Mr. Platt, and was mainly instrumental in having the regular republican organization nominate General Tracy instead of endorsing Seth Low in the last mayoralty campaign—an actionwhich resulted in the election of Van Wyck—the speech is considered significant.

UP THE AMAZON.

The report received by the United States navy department of the trip of the United States gunboat Wilmington up the Amazon river, 1,000 miles above Manaos, the supposed head of steam navigation, is a very interesting document.

The Amazon is the great river mystery of the world. Its mouth was first discovered by Europeans in 1500, and every extended voyage upon it since has been more or less a voyage of discovery. The largest river in the world, in point of volume, it traverses the largest and densest forest in the world. Both the river and the country through which it flows have the most to reveal to the explorer and traveler on any errand bent. The Congo in Africa is a far better known river and the object of more interest and enterprise than the Amazon in South America.

So far as the exploration of the Amazon is concerned North Americans have been more interested than the South Americans. Captain Herndon, in the employ of the United States, made a careful survey of these mighty waters in 1850. He estimated the navigable length of the Amazon, including one of its upper tributaries, the Ucayale, at 3,500 miles. But in truth the Amazon opens up a system of navigable waters covering the north half of South America. The voyager, by making a portage, may reach the waters of the Amazon those of the Orinoco and emerge from that stream into the Atlantic and the Caribbean sea. While the greater portion of the Amazon flows through Brazil, Peru and Ecuador are reached by it. The Wilmington penetrated far into Peruvian territory.

The Wilmington in her recent voyage stirred up the natives on the United States expansion question At the junction of the Rio Negro and the Amazon a city called Manaos was found. In the belief that it was the last town on the river, Manaos had grown to a population of some 40,000, and the people were disposed to resent the action of the Wilmington in going farther up the stream. The American consul was made the object of some unfriendly demonstrations, as were the pilots who assisted the American vessel. The Wilmington, however, proceeded in North American fashion, and found a thousand miles of channel beyond Manaos and, but for lack of fuel, could, Captain Todd believes, have gone three hundred miles farther.

And to this tale hangs another. At the present time the United States is doing a great deal of advertising throughout the world and extending its business in various directions. Why should not the great valley of the Amazon be the scene of an American boom? Our interests are extending in that direction. We have Porto Rico to the southward. We have an equity in Cuba. We shall develop sense and enterprise enough eventually to construct the Nicaragua canal. The American name and fame is, so to speak, widening out in the tropical world. Has not the Wilmington penetrated a highway which may be opened for business?

The Amazon is an equatorial river; it runs all its length through a tropical country. One question to be settled is whether the tropics is of any use for civilized life and business. The United States might experiment on the line of the Amazon.

PRAISE FOR MISS SMYSER.

Of a Fort Wayne soloist who contributed to the program of the recent meeting of the Federation of Women's clubs at Terre Haute, the Terre Express says. "Miss Helen T. Smyser, of the Fort Wayne Morning Musicale, sang a beautiful solo from Liza Lehman's 'In a Persian Garden.' Miss Smyser is accounted one of the finest sopranos in northern Indiana, and her performance of last night did not belie her reputation. Her voice is clear and under perfect control, and her presence is most attractive."

The annual conference of the united missionary societies of the city will be held in the Third Presbyterian church on Thursday afternoon. There will be two sessions, one in the afternoon and one in the evening. Lunch will be served in the interval between the meetings by the ladies of the church.

DESOLATED BY HURRICANE.

HAVOC WROUGHT ON QUEENSLAND COAST.

Nearly Four Hundred Lives Lost in the Storm—Pearl Fishers Meet Death.

Victoria, B. C., May 22.—Shortly before the just-arrived steamer Miowera left Sydney, Australia, for this port, the cutter Mystery returned to Cookstown from the scene of the recent disaster by hurricane on the north Queensland coast, by which practically every vessel engaged in the pearl fishery was wrecked and much property lost afloat and ashore.

The sights that met the eyes of the relief expedition along the desolated coast were horrifying beyond description. In one place where a picturesque fishing village, with a population of 300, had stood neither house nor tree nor living thing was left. The site of the little settlement looked like new plowed land and the survivors among the fishing folk had fled for safety to an inland town, twelve miles distant.

There and further along the coast mangled bodies of men and domestic animals were found. Several were rescued with some difficulty, wedged in the branches of trees that had defied the storm, where they had been blown from distances as great as a quarter of a mile.

The Mystery's officers and crew recovered in all fifty-eight bodies, of which eighteen were identified and claimed by mourning relatives. Of the remaining forty, thirty-six were natives, whose remains were given respectable burial in one great trench.

The Mystery party found large fish and wreckage thirty and forty feet above high water level, and trees and vegetation levelled for upwards of fifty miles along the coast.

An official report says that eighty-six vessels were wrecked and that 385 people lost their lives.

NORTHERN INDIANA NOTES.

A home telephone company has been organized at Decatur, headed by ex-Mayor B. W. Quinn.

Christian Smith, of Auburn, had his arm caught in a buzz saw and ripped off above the elbow.

Sheriff Matthews, of Kosciusko county, is dangerously ill and will be taken to the Battle Creek sanitarium.

Philip Sullivan, a well known politician of Peru, was severely injured in a runaway accident. His jaw was fractured.

William McClellan, a citizen of DeKalb county since 1845, is dead at his home near Auburn, at the age of seventy-four.

Mrs. Hugh Bragg, of North Webster, is the mother of triplets, two boys and a girl, born a few days ago. The infants weighed six pounds each.

A large amount of counterfeit coin is circulating in northern Indiana. William Kulp was arrested at Mishawaka as concerned in the circulation.

Editor Zimmerman, of the Valparaiso Messenger, has announced that in the future his daily will be independent and the weekly the same old democratic exponent.

The Elkhart council has decided to pave Second and Pigeon streets with asphalt. The roadways will be thirty feet wide and either Trinidad or Bermudez asphalt will be used.

John Nichols, a farmer living a few miles east of Waterloo, was killed by a Lake Shore freight train near that place Thursday night. He was thirty years old and well known.

Miss Nora Robinson, of Logansport, ran away to Terre Haute, where she was married Saturday to William Gaston, of Evansville. The young lady's parents objected to the match.

Mrs. Julia E. Work has sent out invitations for a grand opening of her Plymouth orphanage—Brightside Children's Home at Plymouth—which is to occur Wednesday, May 24th.

The Logansport police have suppressed the circulation in that city of the Indianapolis People, a scurrilous publication that is more or less familiar to northern Indiana residents.

Frank Bridge, a well known farmer residing near Laud, in Whitley county, was kicked in the abdomen by a horse and after two days of suffering died from internal injuries Thursday night.

Center township, Porter county, will vote, June 13th, on a proposition to gravel twenty-five miles of road in the township. The county commissioners have so ordered. The cost of the work contemplated is $99,160.

Frederick W. Miller, who was appointed by Judge Wilson to a position on the Elkhart county board, under the new reform law, has refused to qualify on the ground that he is opposed to the provisions of the law. He is a republican.

The band of the One Hundred and Sixtieth Indiana regiment has gone to pieces owing to lack of patronage in the tour it has been making in Indiana since the regiment was mustered out. The band was one of the best musical organizations in the Spanish war.

The hearing of Omar F. Neff, the Milford attorney who has disbarment proceedings pending against him, will take place on the 26th at Warsaw. Mr. Neff claims the charges against him were trumped up by political opponents.

George Brown, formerly of Defiance, Ohio, but now a tramp, sought a bed on the Big Four railway track a short distance north of Milford and was struck by a passenger train and so badly injured that he will not live. He is but eighteen years old.

William Appy, who for several weeks received the honors, ovations, free drinks and cigars of a hero at Muncie and other cities where he posed as a hero of Dewey's victory at Manila, is in jail at Bluffton on a charge of horse-stealing. The fellow is an imposter.

John Beerbower, a farmer in Huntington county, was selling a bull to a butcher and was telling the buyer about the animal's gentle disposition when it turned upon him and attacked him. Beerbower was thrown and tossed by the brute several times, and received injuries from which it is thought he cannot recover.

City Marshal Grund and Postmaster Williamson, of Columbia City, engaged in a rough and tumble fight in the private office of the postmaster. Williamson is also editor of the Mail, and has been making free and uncomplimentary use of the marshal's name in the columns of the paper. Grund called at the office to protest, and a fight was the result. The postmaster drew a revolver, but did not use it.

Margaret Bailey, known to all the country around as "Aunt Peggy," died last Friday at her home near Monument City, Huntington county, at the age of 103 years. "Aunt Peggy" was a native of Kentucky, where her life was spent until 1865, when she went to Huntington county to make her home with relatives. She was never married She was a woman of strong mind, masculine courage and superb physical powers. Up to a year ago she retained her mental faculties almost undimmed. The remains of the aged woman were buried Sunday in the cemetery at Monument City.

Call and convince yourselves of the great bargains to be had at

MEGENTHEIM'S Great Half Off Removal Sale, 26 CALHOUN STREET.

A PLEA FOR THE SABBATH.

ADDRESS BY THE MINISTERIAL ASSOCIATION.

Opposed to Sunday Base Ball, Sunday Excursions and Other Forms of Desecration.

The Fort Wayne Ministerial association discussed Sunday base ball, Sunday excursions, Sunday saloons and other common forms of Sabbath desecration. There was a full attendance at the meeting this forenoon in the Berry Street M. E. church and the expression of views was general, vigorous and unanimous. The following address to the public, together with resolutions, was read and adopted unanimously by the association:

AN ADDRESS TO THE CITIZENS OF FORT WAYNE.

It is well known that the Lord's day, commonly called Sunday, has had an important place in the history of Christian civilization, and in the development of our own republic; and that it has been recognized as a fundamental part of the civil laws of our nation, as a day of rest from toil and as affording opportunities for moral and spiritual culture.

Furthermore, the rest day is proven by experience to be a necessity for man's physical welfare, a necessity in promoting the intelligence and morality of the people, and, therfore, a necessity for the maintenance of free institutions.

In view of these facts, we regard with emphatic disfavor the growing tendency to ignore the proper observance of Sunday, and for the purpose of selfish gain and amusement to transgress the civil laws of the Sabbath, which have been a mighty bulwark of our Christian civilization.

Indeed, the encroachments of secular life upon the Sabbath of our time challenge the attention of all Christian people and all good citizens.

It is a remarkable fact also, that at a time when people of Europe are rousing up to a better observance of the Sabbath, the tendency in America is toward laxity and disregard of Sunday laws. If we allow Sunday to become a day of excursions and amusements, we need to remember that the next step is to constant Sunday labor, when the workingman must give seven days of labor for six days' pay. Oppressed labor all over Europe today is crying out for less work and more leisure, less bondage and an increase of Sunday rest.

We are glad to note the fact that in some parts of our country public sentiment is rising in protest against the tendency to secularize the Sabbath. The courts and people of New York state are at this time setting a worthy example.

When a case of public ball playing by professionals on Sunday was brought before the courts of Rochester, in the summer of 1897, Supreme Court Justice Day thus spoke to the grand jury: "I charge you, that public games, known as ball games, are absolutely prohibited under section 265, on Sunday; and whether ball playing on that day is morally wrong or not, whether it disturbs the peace and repose of the community, or whether the provisions of the law are wise or unwise, are questions that are wholly immaterial so far as you are concerned. These games are prohibited on the first day of the week.' The law, so far as you are concerned, does not contemplate that you shall try the issue whether games known as ball playing are offensive to the public, or of a disturbing character. The legislature has settled that question by prohibiting such games on the Sabbath."

When the case was tried it resulted in the conviction of the offenders and the disbanding of the club.

Another case, attracting much attention in Buffalo, was brought before the supreme court of New York, at Rochester, October, 1898, on an application to remove the police commissioners of Buffalo for not preventing public games of base ball in that city on Sunday. The court declared that: "The Sabbath is the result of the highest dictates of public policy, as well as of religious duty. 'The Sabbath existed before constitution or statutes and was sanctioned by the common law.'"

The court, consisting of Justices Hardin, Follett, Adams, Green and Ward, after taking proof of the matters, decided that it was the duty of the police commissioners and their subordinates to attend the games and to suppress them by the arrest of the guilty parties.

This put a stop to Sunday ball games in Erie county.

Sunday base ball games, Sunday excursions, in which the railroad corporations offer bribes to the people to desecrate the Sabbath, saloons open on Sunday, are some of the wanton and utterly inexcusable breaches of law in our city.

When courts, executive officers and citizens of other states are guarding more earnestly than ever the heritage of a Christian Sabbath, is this the time when the people of Indiana should face toward anarchy and defy the best sentiment of the community?

Resolved, That all Christian people and all good citizens are requested to consider these facts and use their influence for the public good, and the promotion of a worthy sentiment in Sunday observance;

Resolved, That we demand the enforcement of the Sunday laws by our officials;

Resolved, That in every righteous way we discourage Sunday amusements, Sunday excursions, Sunday newspapers, and all unnecessary Sunday work.

FREE

VICIOUS DOG ATTACKS BABE.

LITTLE SON OF WM. MORENE BADLY INJURED.

Child's Face Fearfully Lacerated by the Savage Brute This Morning.

Robert Morene, the 3-year-old son of Mr. and Mrs. William M. Morene, residing at 168 Maumee avenue, was fearfully bitten by a savage bulldog this morning, and will no doubt carry the marks of the injury through life

The little one was playing in an alley near the residence when it was attacked by the dog. The animal seized the child by the right cheek, and its teeth cut two severe gashes down the boy's face, cutting entirely through the check, and barely missing the eye.

The family was attracted by the cries of the little one and Dr. G. C Stemen was hastily summoned. He cauterized the wound and sewed up the fearful gashes made by the dog's teeth, and says the little one will recover, though the face will no doubt be scarred.

The dog was owned by a man named Broeckemeyer and Officer Tremmel will dispatch the animal.

SISTER EXPECTED.

Sheriff Melching received notice today that Mrs. Sarah Vice, of Indianapolis, will arrive in the city this evening to see her brother, F. L. Etchison, who has been confined in the county jail for several days on account of the condition of his mind. She will remain with him a few days before determining what course to pursue.

MARRIAGE LICENSE.

Jacob Backes and Anna Luley.

Subscribe for The Sentinel.

DEATH CAME QUICKLY.

John Frederickson, an inmate of the county infirmary, died very suddenly at noon today from heart failure. He was 77 years of age, but seemed to be in good health, and while eating his dinner suddenly toppled over and fell to the floor. He was hastily carried upstairs, where he died three minutes later. Frederickson has been an inmate of the institution for about eight years.

TWO ARE STRICKEN.

Ernest F. Kirchner, residing at 161 Eliza street, suffered a stroke of paralysis yesterday Mr. Kirchner is quite aged, and his condition is serious.

Jacob Schenk, a cigarmaker, whose home is at 75 Fourth street, yesterday sustained a stroke of paralysis, involving the entire left side. His condition is critical.

CYCLISTS IN A WRECK.

Shortly after 8 o'clock last evening a party of cyclists at Robison park met with a peculiar accident and a number of persons were somewhat injured. In the company were Mr. and Mrs. Joseph Shadle, Mr. and Mrs. Harry Long, Mrs. Williams, Charles Rendles and Mr. Lang. They rode near the old-fashioned windmill at the park for the purpose of checking their wheels. It was quite dark and the leaders did not see a rope which was stretched near the building. The front wheels of two cycles passed over the rope, which then rebounded between the wheels and threw the riders. It was impossible for the riders who followed to stop, and soon they were all in a promiscuous wreck. All sustained some injuries, those of Mrs. Shadle and Mr. Long being quite severe. Most of the wheels were badly damaged.

A COUNTRY ROBBERY.

Sheriff Melching received word at noon today that the home of Christian Nietert, in Adams township, had been robbed Sunday while the family were attending services at a Lutheran church. No report was received of property stolen, and Deputy Sheriffs Witte and Snider are this afternoon making an investigation of the premises. The robbery is supposed to have been the work of tramps.

William Ropa, market master, has given notice that he will sell at public auction on Saturday, June 3, the spaces on the city market. The sale will begin at 9 a. m.

NEW JACK O' THE DUST.

Career of the Recently Appointed Paymaster General of the Navy.

The navy has a new chief Jack o' the Dust He is Albert S Kenny, who has been promoted from general storekeeper to paymaster general, with the rank of rear admiral and the pay of a brigadier general Not only will he have charge of the pay rolls of Uncle Sam's fighting Jack Tars, but a great deal more besides All the repairs to ships, the providing of coal, provisions and clothing, will be under his personal direction. Over all of the seven seas he must keep his eyes that none of our men-of-war's men may go hungry or ill clad

The advancement of the new paymaster general, who was jumped over the heads of several other pay directors, is due to his marked ability for the work. He showed this in systematizing the purchase and distribution of supplies in the navy He was the originator of the general storehouse and administered it

ALBERT S KENNY

during the war with Spain in such a manner that our war vessels lacked nothing to make them efficient fighting machines

Mr Kenny was born in Iowa and appointed from Vermont in 1862 as assistant paymaster He served on the blockading squadrons during the civil war and was present at both attacks on Fort Fisher He became pay inspector in July, 1884 and after holding several important posts became general storekeeper in October 1890 He went to the European station in June 1893 returned to New York in January, 1896 to take charge of the navy yard pay office and was again made general storekeeper in June of that year

How to Make Fancy Sandwiches.

Chop cold chicken very fine and soften it to a paste with butter and cream Season with salt and pepper and spread on thin graham or wheat bread Mushrooms added to the paste give it a spicy flavor They should be stewed and chopped fine

How to Fry Apples.

Take out the core and slice the apples in thin round pieces Do not peel Drop in a pan of hot butter or lard and let them fry a light brown. Take out with a strainer, sprinkle them with sugar and serve hot Small apples are best for frying

How to Prepare Stuffed Clams.

Steam and chop 20 large clams, brown three large onions in butter, add one well beaten egg, one-quarter cup of melted butter, 1½ cups of solid tomatoes, one-half teaspoonful of salt, same of pepper, chop all together once more. Fill the half shell of clam with this mixture, cover with cracker dust; with small pieces of butter on top. Bake 20 minutes in hot oven and serve at once with catchup.

How to Disinfect.

To keep clean the house where a consumptive lives is essential to keep other inmates from contracting the disease. The best and the cheapest plan in the sickroom is to pour carbolic acid and water into a saucer and keep it standing there all the time. A piece of flannel or felt placed in a saucer will check evaporation to some extent. Three saucers are better than one. If there are children or pet dogs and cats in the house, it is better to place the saucer on a mantel out of reach of meddlesome hands. The solution must be renewed every 24 hours.

Much care should be exercised in rinsing the cuspidors with hot water and flushing all vessels used by consumptives with carbolic acid and water.

Carpets and lace curtains are liable to hold germs and dust if a consumptive is confined to a room; hence as much fresh air and sunlight as possible should be instantly admitted.—St. Louis Post-Dispatch.

How to Make Mackerel Salad.

Take one can of mackerel and cut up an equal quantity of celery. Stir to a cream one cupful of butter, one tablespoonful of mustard, one of sugar, a pinch of salt and pepper and the yolks of three hard boiled eggs rubbed smooth with five tablespoonfuls of vinegar. Pour the mixture over the fish and celery

How to Terrapin Chicken.

Take three pounds boneless boiled chicken, chopped fine, add to it a pint of broth, one-half pint cream, four hard boiled eggs, five heaping teaspoonfuls richly browned flour, one teaspoonful salt, one cup butter. Rub the eggs through sieve, add the browned flour, broth, eggs and cream to chicken, with two pieces of chopped celery. Cook slowly 15 minutes, season with mace and pepper to suit taste. Just before serving on golden browned toast add two wineglasses madeira wine.

How to Make Cabbage Salad.

Small head of cabbage chopped fine, an even teaspoon of mustard, an even teaspoon of salt, a tablespoon of sugar, half cup of vinegar, two eggs, piece of butter size of an egg melted separately. Stir all in before pouring over the cabbage. Let all the ingredients except cabbage come to a boil just to thicken except the butter, which add last, then pour over cabbage while hot.

WAR ON THE SEALS.

WHY CALIFORNIA WANTS TO THIN THEM OUT IN THE GOLDEN GATE.

They Kill Off Too Many Salmon and Serve No Purpose Except to Lend Picturesqueness to the Rocks Near the Cliff House.

A unique warfare is to be begun in the waters of the Golden Gate. The California state fish commissioners are going to thin out the seals in San Francisco bay and adjacent islands. For years the seals have been protected by law, but long ago they became a nuisance, and now it has been determined that they must go.

The fondness of the seals for salmon and other food fish has been their undoing. It is said that one seal will eat 50 pounds of fish at a meal and kill twice as much more just for the fun of it. Besides this, he destroys nets. When the fish commissioners reflect that thousands of dollars are annually spent to stock the Sacramento river with salmon, they draw the conclusion that seals are an expensive luxury.

All that the seals are good for is to add picturesqueness to the rocks near the Cliff House, where their antics are watched by interested tourists. Years ago, when seal hide was used for belting, the seals were hunted and their numbers kept down, but since rubber has taken the place of seal leather for belting the seals are no longer systematically killed.

The principal breeding place of the seals is on the Farallone islands, about 40 miles from San Francisco. The territory of these islands is a lighthouse reservation and under control of the treasury department. As in past years seal hunters did much damage to lighthouse property, the hunting of seals and birds there was forbidden. So the California fish commissioners have put the facts before Secretary Gage and asked for permits to kill seals on the island. As soon as these permits are issued the killing will begin.

These seals are not the fur seals of commerce. They are the gray seals and are not worth the ammunition that it requires to kill them. In their habits they do not differ materially from the fur seals of Bering sea. There still is much to learn about them. After the baby seal has been taught by its mother to swim and care for itself the pup disappears and for two years does not return to the rookery where it was born. Where it goes and what it does in the meantime are mysteries that no one has solved.

The Seal rocks, near the Cliff House, are occupied mainly by the young bachelor seals, who have not yet established a claim to set up a harem. Until a bachelor seal reaches 5 or 6 years of age he has not the strength to meet the old bulls in combat and is driven off the breeding grounds. When his teeth are fully grown and he waxes strong, he enters as a competitor for the favor of the cows and at once becomes the head of a harem. The biggest bulls weigh something over a ton, and it requires four strong men to handle the carcass. The cows average from 1,200 to 1,500 pounds, and the yearling pup weighs about 300 pounds.

Their favorite fishing places are narrow channels between the islands, through which the fish are carried by the strong current. When a certain whitish ridge on the waves shows that the fish are coming, the seals dive off the rocks and begin the attack. They toss up the fish and catch them in their mouths, but as soon as they have satisfied their hunger they wantonly destroy the fish. Generally they bite a

SEALS ON THE FARALLONE ISLANDS.

piece out of the back of the fish, or else they simply crush it in their strong jaws and toss it on the water. If the air is in the fish's bladder, the carcass floats; if not, it sinks. After such a raid by seals the water is often covered with the bodies of dead and mangled fish.

For 20 or 30 years the fishermen generally, and the salmon packers of the Sacramento especially, have been complaining of the sea lions and praying for their destruction. This same agitation has bobbed up periodically. Fish commissions have heard delegations, discussed, resolved and reported over and over again, and the verdict has always been that the sea lion destroys enormous quantities of fish, seriously interferes with the fishing industry hereabouts, especially the salmon industry, and that his number should be lessened. But the sea lion has been protected by law, and each agitation has died without result.

But this time the seals must suffer. The exact method to be pursued has not been determined, but that is a mere detail. Deputies and some hired riflemen may be sent out to do the work, and, as is most likely, the work may be done under some sort of a contract arrangement with skilled men.

MARK NORRIS.

FOOD FOR CHILDREN.

How to Feed the Little Ones to Keep Them Healthy.

As soon as teeth begin to come, saliva begins to be secreted and food more concentrated, then simple milk is not only permissible, but desirable. Go slowly with the new dietary and watch the movements. Allow such and as much as does not change markedly the color and consistency of these out of the normal. It is the identical rule that obtains in feeding young calves. If things go wrong, move back to or toward milk, or milk and long boiled strained gruels, or a tested baby food. But ordinarily it is safe to give meat juice, soft boiled egg, scraped ripe apple or peach, orange and grape juice, other fruits baked or stewed, potato sparingly, cream and butter moderately, bread, soups and very small portions of tender beef and chicken, chopped fine. Seedy fruits, hard or fibrous fruits, sweet dishes, jellies and the like, coffee, baked meats, pies, rich cake, preserves these are the class of articles that will cause regret.

It is thoughtlessness in allowing, say, sausage or doughnuts to reach a baby's hands and mouth that leads to trouble, rather than misjudgment, where any mother sets out seriously to give her baby only what she finds (by the movements), day by day, it can do well on. Where milk (always to be continued, in some form, as a liberal constituent) is not relished it often will be by beating up an egg, taking half, filling the cup up with milk and salting and sugaring a little.—New Voice.

How to Make Sauce For Chops.

A hot sauce for chops is made as follows: Oil an ounce of butter, stir in gradually a dessertspoonful of made mustard and a good pinch of cayenne. Chop finely a few chillies and add to the above. Mix all together and pour over the meat. Another sauce: Fry some sliced onions in dripping till a rich brown, add some brown sauce and stew all together for a few minutes. Pass all through a hair sieve, add a squeeze of lemon and serve.

How to Detect Meningitis.

A severe headache is usually the first symptom, and especially in children, should then be observed. The headache may continue for a day and then apparently cease. On the second day violent sickness appears, and the patient vomits frequently. When this ceases the headache returns, and it is more severe than ever. A high fever accompanies the first headache. It disappears and with the second appearance of the fever returns with new force. The brain becomes congested. It is then the head begins to draw back. If a physician is not called before the disease reaches this stage his services are likely to prove of no avail. The parent should not neglect calling a physician promptly when delay might result so disastrously. The spots are only a symptom, and they may appear at any stage. In fact, they have been known to appear only after death —St. Louis Dispatch.

How to Make Dried Apple Pies.

Pick and wash one quart of dried apples and put in a porcelain kettle with two quarts of water and two of cider. Let this stand overnight, and in the morning place on the fire and simmer three hours. Then lay in (but do not stir) two quarts of sugar and simmer two hours longer. Then turn into a stone pot and put away for use. Make the pies the same as green apple.

How to Make Lemon Drops.

Better lemon drops than any you buy at the store can be made at home by boiling a pound and a half of powdered sugar in a pint of water, with a teaspoonful of cream of tartar, and enough lemon juice to suit the taste. In half an hour pour into buttered dish, pull out into long sticks, and chop into convenient size. A good butterscotch candy is made by boiling two cupfuls of sugar in two tablespoonfuls of water. Add a piece of butter the size of an egg, and when the mixture hardens on the spoon pour out on buttered plates to cool.

How to Make Graham Pies.

Into a pint of graham flour stir one teaspoonful salt. Wet with boiling water enough to make a stiff paste. Roll this very thin and cut into cakes about three inches in diameter. Put into these a spoonful of apple sauce and fold them. Bake on tin sheets.

How to Make Whey.

To a pint of warm new milk add a teaspoonful of prepared rennet. Let it stand and then strain through a piece of muslin. This can often be taken when milk cannot and is a useful drink in feverish complaints.

How to Make Lint.

Save all pieces of old linen that are not too torn or small. Nail each piece separately upon a board and scratch up the surface gently with a blunt knife until a soft fluff is formed of the detached filaments. Then remove the linen from the board and roll each portion separately, keeping the soft side inward. These will be found useful when an injured member requires to be dressed.

How to Make Cheese Custard.

Beat up two large or three small eggs and pour in a basin containing a pint of milk. Grate four ounces of cheese and mix well together. Add one ounce of butter and bake for one hour in a moderately hot oven.

CONCERNING SOUP.

How Various Odds and Ends May Be Utilized In Its Preparation.

The cook who would succeed in sending good soup to the table must take care that she has strong and excellent stock ready for it, and the economical housewife will soon find that stock does not always require meat to be bought for its production.

The water in which mutton has been boiled, the bones taken from rolled ribs of beef or from any boned joint or poultry, will make excellent stock for a family soup. The trimmings of large joints or cutlets, the shanks of lamb or mutton or ham, and the large bone of the sirloin of beef will all add to the stock pot and supply a good foundation for the soup.

Soup should never be made with hard water, unless it is of green peas, whose color is preserved by the hard water.

The rule as to quantity is one quart of water to a pound of meat without bone. If the quantity of water is diminished, the soup is increased in strength and richness.

Meat should be put into the soup kettle with very little water at first, and with a piece of butter to keep it from burning. It should be left to stew very slowly until the essence of the meat is extracted. Very long and very slow stewing is one secret of good soup.

Skim the soup pot frequently, and do not let it cool until it is thoroughly done. Onions should be put into the soup soon after it has begun to cook; herbs, carrots and celery three hours afterward; turnips or any other delicate vegetable just before the soup is finished. When celery is out of season, the seeds of the plant, tied up in a piece of clean muslin, will give the flavor equally well.

The coloring of soup is done in various ways. A piece of bread, very brown, may be simmered in the soup for a short time before it is done and will give it a brown color. The ordinary coloring, however, is done by putting a little burned brown sugar into it. The sugar is first put into a saucepan with a piece of butter the size of a walnut and a little catchup. For those who do not dislike them burned onions are an improvement both as to color and flavor.

When clear soup is desired, the stock can be clarified by breaking an egg and using the white and the shell, but with not a particle of the yolk in it. The white is beaten to a stiff.

How to Make the Neck Plump.

Following is a recipe which is a tried and true remedy to make a thin neck plump and round: Oil of almonds, six ounces; spermaceti, one ounce; white wax, three-quarters of an ounce; lanolin, two ounces; glycerin (pure), one-half ounce; tincture benzoin, 40 drops; balsam of Perh, one-quarter ounce Rub thoroughly, but not violently

BICOLA PILLS

Prevent Waste, Fortify Body and Minds

Feed the Nerves; Make Flesh and Blood.

The Ideal Tonic For Men and Women

One of the best-known hotel proprietors in the United States is Mr. Henry W. Lawrence, proprietor of the Bates House and Spencer House, at Indianapolis, Indiana. When a man like Mr. Lawrence tells the people everywhere to take Bicola Pills, the great blood and nerve remedy to regain their health and strength; when he tells the weak, tired and nervous that this great remedy will make them strong and well, it means something coming from a man like Mr. Lawrence.

He writes that Bicola Pills gave him immediate relief from a severe attack of rheumatism and general nervousness, and he earnestly advises all sufferers from nervous and blood troubles to use Bicola Pills.

The Turners of Philadelphia make Bicola Pills.

CENTRAL STATION

PENNSYLVANIA WILL MAKE IMPORTANT CHANGE.

ENLARGING ELECTRIC PLANT.

MOTORS WILL TAKE PLACE OF SMALL ENGINES.

FIFTY YEARS AT THROTTLE.

TONY KELKER STARTS SECOND HALF CENTURY IN CAB.

The Pennsylvania company will establish a central electric power plant at the shops in this city which will have four times the capacity of the present plant. The new station will occupy the south end of the east wing of the planing mill buildings, east of Lafayette street, which now serves as Master Car Builder J. A. Graham's office and the cab painting room. It is the intention to place five large boilers in the plant and a Corliss engine of 450 horse power, but at present only three of the boilers will be set, that number being considered sufficient to generate steam to run the plant until the new freight house is erected, which will not be for some time. When the new electric plant is in operation it will furnish power to drive the pumps at the St. Mary's river and the machinery in several of the departments of the shops where steam engines are now employed. The plant will be installed this summer.

DEATH OF GENERAL MANAGER.

Robert Gillham, general manager of the Kansas City, Pittsburg and Gulf railroad, died at Kansas City, Mo., Saturday after a brief attack of typhoid malaria. As chief engineer Mr. Gillham superintended the consturction of the Pittsburg and Gulf system and when the work of construction of the Pittsburg and Gulf manager of the entire system. When the southern lines of the road went into the hands of receivers recently he was named one of the receivers by the state district court. Later, when the federal court assumed jurisdiction in the receivership proceedings he was dismissed as receiver, but the decree specified that he should be retained as general manager.

OUTRAN A TRAIN.

Charles L. Ruel, a stock dealer and an athlete, shipped a train load of stock from Trevor, Wis., to Chicago, a few days ago. and was considerably disturbed over the fact that it took eighteen hours to travel the sixty-eight miles between the two places. He said he could travel that distance on foot in less time than the train consumed, and offered to back his statement by a $500 bet. The railway manager immediately accepted the offer and the money was placed in the hands of a stakeholder. Saturday the feat was accomplished, Buel running the sixty-eight miles in thirteen hours and thirty-five minutes. He was accompanied on the trip by a big crowd of cyclists and men and women in buggies, and 10,000 people witnessed the crossing of the tape.

LOCOMOTIVE EXPLOSION.

A Chesapeake and Ohio locomotive blew up at Maysville, Ky., Saturday, carrying the engineer a distance of fifty feet and seriously injuring him. Pieces of the locomotive were found a quarter of a mile from the scene of the explosion.

A BIG EXCURSION PARTY.

The excursion to Cincinnati yesterday, over the Grand Rapids and Indiana road, was the biggest event of its kind of the season. There were 228 tickets sold at this point and when the train reached Cincinnati it had over 600 excursionists aboard. The Grand Rapids road also took 150 of our people to Rome City, where the majority of them spent the day in fishing.

MANY YEARS IN THE CAB.

Tony Kelker, passenger engineer on the Pittsburg, now running on trains 8 and 5 between this city and Crestline, has been an employe of the company, or its predecessors, for 50 years, and most of that time has been spent in the cab. May 22, 1849, when Mr. Kelker was fourteen years old, he became "water boy" for a gang of grades on the line near Salem, O., the company then being known as the Ohio and Pennsylvania. His father was the contractor for that stretch of road between Salem and Damascus. Two years later, when Mr. Kelker was sixteen years old, he was made foreman of a gang of men engaged in building the immense grade at Damascus. When this job was completed, Mr. Kelker's father accepted another contract near Crestline and moved his family to that place. He was assisted in this work also by his son, Tony, who, at its completion, became a track layer and laid the first rail on the line west of Crestline. He continued in this capacity until the tracks were laid as far westward as Van Wert, when he was placed in charge of a construction train, his engine being placed upon the tracks at Delphos, where it was taken by canal boat from Toledo. This engine was the first locomotive to arrive in this city. August 15, 1855, Mr. Kelker assumed a position in the cab, which has continued until this day, the only change being from fireman to engineer. Mr. Kelker became a passenger engineer in January, 1859.

THE FORCE INCREASES.

There are now 205 shopmen and fourteen office men in the employ of the Fort Wayne Electric works, an increase of over a dozen over last week. Among the names added to the list this morning were John Miller, William Schaefer, Charles Bott, Jas. Bailey, Edward Conroy and Herman Eichmeyer. Supt. J. J. Woods said a few days ago that he expected to have the biggest force in the history of the establishment at work in a few weeks and it seems that this expectation is about to be realized.

MAY BE A LIFE-LONG CRIPPLE.

Frank Meyers returned from Chicago yesterday and this morning resumed his place in the Pittsburg shops. He says his brother George is badly hurt, the muscles and tendons of his right arm being crushed, and his side and hips painfully bruised. It is feared that the injured arm will never be restored to its original condition. George Meyers was formerly employed in the Pittsburg shops also. He has been switching in the yards of the Chicago and Eastern Illinois company for two years.

WILL MOVE TO ALTOONA.

George Slater, the well known machinist in the Pittsburg shops, has returned from Altoona, Pa., where he went a few days ago to visit relatives and old friends. While there he was offered and has accepted a position in the Pennsylvania shops and is now packing up his belongings preparatory to returning to that city to stay. Mr. Slater is well liked by his shopmates and they will be sorry to learn that he has decided to remove from the city.

INDUSTRIAL NOTES.

Timothy Kelley, of the Bass 'smith shop, is sick.

Blacksmith Henry Bickness, of the Pittsburg shops, is sick and off duty.

George Hill, of the Pittsburg planing mills, is sick and off duty.

J. W. McCoy, of the Wabash shops, was the guest of his brother at Wabash over Sunday.

Machinist Philip France, of the Pittsburg, was in Chicago yesterday, the guest of friends.

T. J. Foley left this morning over the Wabash for Toledo on business for the Pennsylvania company.

Charles Lehr, the engineer on the Pittsburg transfer engine, has taken a vacation, which he is spending in Chicago.

The Detroit and Lima Northern company has let contracts for a new passenger and a new freight depot at Bellefontaine.

J. J. Jones and Martin Didion, blacksmiths at the Bass works, resumed work this morning, after a few days' illness.

General Manager Joseph Ramsey, of the Wabash, who has been in Washington several days, returned to St. Louis Saturday.

Charles Szink, painter at the Pittsburg shops, is spending a two weeks' vacation in Altoona, Pa. He formerly resided in that city.

S. F. Bender, who has charge of the puzzle switch in the Pittsburg yards at night, is kept from work by sickness in his family.

Boilermaker John Meyers, of the Wabash, has gone to Delray, Mich., to do some work for the company, which will consume about a week.

The Electric works will install a lighting plant at Champaign, Ill., and last Saturday sent the dynamo and station equipment material to that city.

Car Conductor S. H. Piepenbrink and Motorman S. V. Harper left this morning for Washington, D. C., where they will remain the rest of the week.

On June 3d over 200 farmers on the line of the Lake Erie and Western will visit Purdue. The Lake Erie and Western gives them low rates and a special train.

A. M. Schoyer, superintendent of telegraph of the Pennsylvania lines west of Pittsburg, spent a few hours in the city this morning. He was en route to Grand Rapids.

The Illinois Central is pushing the building of the Phillips branch, and if the weather continues favorable trains will be running over the new extension by July 15th.

W. J. Hart, general manager of the Detroit, Lake Shore and Mt. Clemens road, has resigned, and Thomas N. Ferdyce, secretary of the company, will assume the duties of general manager. Frank A. Draper will be general superintendent, and L. J. Raney will be given charge of the mechanical department.

Cashier Joseph Sunderland, of the Wabash freight office, left this morning for Indianapolis, thence to Cadmore, O., to attend the reunion of the Sunderland family.

L. O. Fisher, of the Wabash shops, spent Sunday with his family at Antwerp, Ohio. He will bring his wife and children here to reside as soon as the schools at Antwerp are out.

Archie Smith, who recently took a position in the Wabash shops, has resigned and returned to Detroit, Mich., where he will resume the position he vacated when he came here.

Engineer David Raidy, of the Pittsburg, is enjoying a few days' rest and this morning, in company with his daughter, Miss Nellie Raidy, went to Valparaiso to visit relatives.

Louis Gronau, of the Pittsburg planing mills, was taken suddenly and violently ill yesterday and for awhile was considered in a dangerous condition. He was reported better this morning.

The annual meeting of the Veteran Employes' association of the Pennsylvania road was held on Thursday at Altoona. Out of a membership of six hundred over three hundred were present.

Charles Porter, an electrical engineer, has returned from Huntington, W. Va., where he was lying ill a couple of weeks, at the home of his father. He has resumed his duties with the electric company.

Ripley, Ohio, has voted to issue $15,000 worth of city bonds, the receipts to be devoted towards a site for railway shops which the Columbus, Ohio River and Tidewater company promise to locate there.

Class O, engine 48, which hauls trains 8 and 5 between this city and Crestline, Tony Kelker at the throttle, is receiving a larger tank. The new tank will hold 5,000 gallons, sufficient water to make a run of 120 miles.

Indianapolis Journal: "Thomas O'Connell, who has been in the Big Four shops in Brightwood for some years, has been appointed superintendent of the Wabash shops at Peru, Ind., and Saturday removed his family to that place."

Rhienhart Sitterlin, of the Bass blacksmith shop, is preparing for a trip to Germany, his native country. He will leave for New York June 1 and sail for the old country a few days later. He expects to be abroad about three months.

The projectors of the extension of the Southern Indiana road are meeting difficulty in the extension of the road to Linton, the farmers on the proposed line having combined and placed a much higher value on the land required for right of way.

It is stated that the owners of the Chicago and Eastern Illinois have decided to extend what is known as its Cissna Park division, from Cissna Park to Anchor, forty miles. Anchor is a mining town in the heart of the McLean county, Illinois, coal fields.

Joseph Bly has been added to the police force of the Pennsylvania and has been assigned to duties at the east car shops. He is a son of Theodore Bly, the veteran yardmaster. Joseph was employed as solicitor of subscriptions to The Sentinel several months ago.

On the Chicago division of the Pan Handle, on Tuesday, twenty-five firemen were laid off for an indefinite period, fifteen engineers were put back to firing and six regular firemen were placed on the extra list, on account of the falling off in business on this division.

The late Roswell P. Flower owned the controlling interest in the Chicago and Eastern Illinois. There is some speculation as to the future of the road, as his death may open the way for the sale of these securities to parties who have, for some years, been trying to get hold of the road.

Charles Harley, warden of the Michigan City penitentiary, returned to his home this morning after a business visit in Fort Wayne. A new power house is to be erected at the penitentiary and Mr. Harley was in Fort Wayne for the purpose of inspecting the engines manufactured by the Bass works.

Operating trains by telephone instead of telegraph is a radical innovation that has been made by the Illinois Central company. It is one of the first attempts ever made to direct the movements of railroad trains by anything but the time-honored written telegraphic order. Officers of the experimenting company pronounce the verbal system a success and it may be tried for longer distances. The telephonic train dispatching has been done on the elevated tracks of the St. Charles airline.

Christian Rathert, who has gone to Chicago to assume the foremanship of the blacksmith department of the Seimens-Halske works, was honored by his former shopmates at the Electric works Saturday night. About fifteen or twenty of them called at Mr. Rathert's home and were entertained most pleasantly. A fine lunch was served at 11 o'clock. Mr. Rathert was, until last Saturday, foreman of the blacksmith shop at the Electric works. He is succeeded in that position by William Tegtmeyer, who was employed at the forge in that establishment for some time.

Prices that Completely Eclipse— Competition,

At J. L. Sievert's Wholesale and Retail Optical and Jewelry establishment, 85 Calhoun Street.

We are determined to sell more rings than all other stores combined.

For this week we offer you choice of seventy-five set rings at only $1 00 each, worth from $2 50 to $3.50.

100 different patterns at only $2.00, worth $4.00 to $5.00.

Engagement and wedding rings go at half-price.

On our line of 8-day striking clocks we save you from $2.00 to $2.50 on every purchase.

Fitting glasses to the eye is our specialty; with a feeling of pride we can show up our good results. Remember we refund your money if our glasses are not as we represent them and we acknowledge no equal in this part of the state.

Our properly adjusted glasses relieve eye strain, cure frontal headache and strengthen the sight. Try us for a comfortable pair of glasses and be convinced.

Steel spectacles, $1.00; Gold, $5.00 up.

L W. Jones, of Pittsburg, purchasing agent of the Pressed Steel Car company, was here Saturday on business with the Bass Foundry and Machine company. The latter firm is making hundreds of tons of castings and thousands of car wheels for the Pressed Steel company.

COURT HAS NO JURISDICTION

JUDGE HENCH MADE AN IMPORTANT DECISION.

Holds That the Federal Court Only Has Jurisdiction in the Affairs of the Schell Company.

Judge Hench this afternoon rendered his decision in the case commenced by Sarah J. King et al vs Hugh G. Keegan, trustee of the J. F. Schell Loan and Investment company. The plaintiffs asked for an order restraining the trustee from selling the vault and other additions to the Schell offices, contending that they were a part of the building. W J Vesey, for the trustee, contended that the state courts had no jurisdiction in the case, inasmuch as the federal court now had charge of the affairs of the company. Judge Hench held that the state courts had no authority and cited many opinions to uphold his finding in the case. Judge Colerick, for the plaintiffs, then asked for a restraining order and stated that he desired the regular judge of the court to pass on the matter. Judge Hench doubted whether he had any authority to issue a temporary restraining order after the demurrer had been decided, and gave the attorneys until 4:30 to submit decisions, at which time he will decide as to the temporary restraining order. The sale of the Schell property will occur next Wednesday.

STRAWBERRIES FROM ILLINOIS TOMORROW (TUESDAY) MORNING, 8C QUART AT THE GREATEST.

New Potatoes down to 45c peck.

The song recital to be given by Mr. Charles M Clark and Miss Helen Smysei at Kimball hall, Tuesday, May 23, promises to be the musical event of the season Mr. Clark is very prominent as an oratorio and concert singer, the most prominent in the west and probably in America. He studied with Henschel in London and while abroad sang the role of Motor with enormous success He returned to Chicago last year

Miss Helen Smysei, who assists him in the concert, is well known here; she has been studying with Mr Clark since last fall.

Mrs. Fisher, of Chicago, will be the accompanist The program is exceedingly attractive.

The Dichterlieb of Schumann's forms the first part of the program which Mr. Clark will sing entire. The second part will consist of solos from the Persian Garden by Miss Smysei and Mr. Clark.

ESTABLISHED 1833. FORT WAYNE, IND., MONDAY, MAY 22, 1899. PRICE TWO CENTS.

TO RULE FILIPINOS

A FORM OF GOVERNMENT IS SUBMITTED.

HAS APPROVAL OF PRESIDENT.

NATIVES TO ENJOY RIGHT OF SUFFRAGE.

AMERICANS TO HAVE OFFICE.

PLAN MEETS WITH FAVOR OF FILIPINOS.

Manila, May 22.—3:15 p. m.—Professor Schurman, head of the United States Philippine commission, has submitted the following written propositions to the Filipinos:

"While the final decision as to the form of government is in the hands of congress, the president, under his military powers, pending the action of congress, stands ready to offer the following form of government:

"A governor general, to be appointed by the president; a cabinet, to be appointed by the governor general; all the judges, to be appointed by the president; the heads of departments and judges, to be either Americans or Filipinos, or both, and also a general advisory council, its members to be chosen by the people by a form of suffrage to be hereafter carefully determined upon.

"The president earnestly desires that the bloodshed cease and the people of the Philippines at an early date enjoy the largest measure of self-government compatible with peace and order."

The United States commission prepared the scheme and the president cabled his approval of the form of the document.

The Filipinos have made no definite proposition except for a cessation of hostilities until they can present the question of peace to the people. Professor Schurman told the Filipinos they had no means of gathering the people together, as the Americans control most of the ports. He also reminded them that a liberal form of government was offered them and pointed out that it was better than the conditions existing under Spanish rule.

Gugugn, president of the Filipino commission, replied that nothing could be worse than Spanish rule and admitted that the form of government proposed was liberal. The civilian members of the Filipino commission have declined to co-operate with the other members of that commission, as the former consider Aguinaldo's latest demand to be preposterous, after Major General Otis' refusal of an armistice, referring to his wish for time in order to consult the Filipino congress.

After a conference tomorrow with the United States commissioners, the Filipino commissioners will lunch with Professor Shurman and will afterwards visit the vessels composing the American fleet.

OPERATIONS CONTINUE.

Manila, May 23.—2:18 p. m.—In spite of the presence of the Filipino commissioners in Manila the military operations continue with unabated vigor.

The visitors were apparently ignorant of the true conditions of affairs here. Upon their arrival they were immediately inundated with invitations covering both night and day and express surprise at the conditions of affairs within our lines.

They have been led to believe that everything was chaotic and are delighted at the reception accorded them.

Reports received from persons who have arrived from the interior show that no troops are left in the northern provinces. They were all drafted south after the outbreak of war.

The villages on the west coast are almost deserted and the Ililcanos especially are desirous of joining the Americans, if only for the purpose of crushing the Tagals.

Many natives of Benguet and Ilicos said that if the Americans had not arrived civil war would necessarily have ensued, owing to the friction between the Tagals and the inhabitants of other provinces.

It is added that the only Filipino troops now left are seven thousand men under General Luna at Tarlac and about four thousand under General Rio del Pilar. Even these are demoralized and short of arms and supplies. Many of their rifles are disabled and the Filipinos are unable to repair them owing to the lack of mechanics and materials for so doing.

A coasting steamer which has arrived reports that the Spanish garrison at Zamboanga, Island of Mindanoa, is held by the rebels in much the same way the Americans held it while they were in the vicinity of Manilla. Every night the Spaniards are subjected to an ineffectual fusilade, and if they are not soon relieved they will be reduced to the condition of the Spanish garrison at Iloilo just previous to the evacuation of that place.

VETERAN OF TWO WARS DEAD.

St. Louis, Mo., May 22.—Brigadier General Christian D. Wolfe, a veteran of the Mexican and civil wars, is dead, aged 77. In both wars he served with distinction and before the close of the war President Lincoln appointed him brigadier general of volunteers.

THROWN OUT AND HURT.

While Gustave Lamberson was driving home on the Illinois road Sunday his horse became frightened at a lady and a gentleman who were coming toward the city on their wheels. The horses started up the road, upsetting the wagon and throwing Mr. Lamberson out. His back was sprained and one of the bones of his right arm was broken above the wrist. A doctor was summoned from the city, who attended to the farmer's injuries, and he was later removed to his home.

APPLIES FOR A FRANCHISE.

COMMUNICATION RECEIVED OF THE CENTRAL UNION.

Desirous of Building a Conduit System in the Down-Town District—Municipal Notes.

The board of public works this morning received a letter from the Central Union Telephone company making application for a franchise allowing them to construct a conduit system in the territory bounded on the north by Dock street, on the east by Barr street, on the south by Murray street, and on the west by Webster street. The communication making application explains that it is the purpose of the Central Union company to construct a conduit system, and within thirty days after the ratification by the council of the contract and the acceptance by the company work will be commenced so that the system can be completed during warm weather. The board is further informed that it will be necessary to erect distributing poles in the territory occupied by the system. The company also asks for a meeting with the board of works before the contract goes to the council. City Attorney Shambaugh is today preparing a contract for the board to act on this afternoon.

MUNICIPAL NEWS.

The city council will meet in regular session tomorrow evening. The committee on streets will report in favor of Councilman Hosey's resolution providing for the placing of conduits under streets improved, providing the council furnishes the money to make the improvements.

An ordinance providing for the protection of cement, brick or other smooth surface sidewalks will also be reported favorably. It provides for a fine of not to exceed $50.

DR. LYONS KILLED.

Dr. William B. Lyons, an aged physician of Huntington, was killed by Wabash fast freight No. 92 at 7:40 this morning. The train was passing eastward through Huntington and Dr. Lyons attempted to cross the railway in front of the train, but was not fast enough, and the engine, which was in charge of Engineer Clark, struck the aged physician and threw him with great force against some cars standing near and crushed his life out instantly. Conductor Wells had charge of the train. Dr. Lyons was one of the oldest practitioners in Indiana, having practiced in the Lime City for half a century. He was well known in Fort Wayne years ago, but of late years his advanced age has prevented him from being as active in his profession as he was once.

HOTEL BUILDING BURNED.

Philadelphia, May 22.—Fire of an unknown origin early today destroyed the Oxford hotel building, including Oxford hall, once famous for political meetings held there and the Oxford stables. The loss is estimated at $100,000, partly insured. Policeman Robman was injured while rescuing horses from the burning stables. The hotel was unoccupied. The fire started in the stables, where twenty-five horses were stalled. All the animals were saved. The Oxford market, adjoining the hotel, was slightly damaged.

RAN ON THE ROCKS

AMERICAN LINER PARIS IN A BAD PLIGHT.

DISASTER AT THE MANACLES.

WENT ON THE REEFS IN THE DARKNESS.

NO PASSENGERS WERE LOST.

IS RESTING EASILY IN A QUIET SEA.

Coverack, Cornwall, May 22.—The cargo of the American line steamer Paris, which ran on the rocks off Lowland's Point, not far from here, at 1 o'clock Sunday morning, while on her way from Southampton, by way of Cherbourg to New York, is being rapidly discharged from the two forward hatches. No attempt will be made to float the Paris this afternoon. The weather remains beautifully fine, the wind is off shore and the sea is smooth.

Salvage tugs from Liverpool will arrive at the scene of the wreck tonight. It is believed the next attempt to float the Paris will be made on Wednesday. Everything at present seems favorable to success.

WOULD NOT EMBARK.

Falmouth, Cornwall, May 22.—The North German Lloyd steamer Bremen, which left Southampton on Saturday, arrived here this morning under instructions to embark for New York the saloon passengers of the Paris, which is ashore near Coverack. But the passengers are not ready to proceed on their voyage, many of them suffering from shock, so the Bremen continued on her passage westward.

Quite a fleet of excursion steamers are taking holiday makers from the port and Plymouth to see the wreck.

Many passengers of the Paris took the train for Southampton this morning, where they will await the sailing of the North German Lloyd steamer Kaiser Wilhelm der Grosse, which is scheduled to sail from Bremen for New York on May 23, touching at Southampton on the following day.

STORY OF THE MISHAP.

The Paris, Captain Watkins, from Southampton and Cherbourg for New York, struck on an outlying ridge of the Manacles Sunday morning at a point half a mile from where the wrecked Atlantic transport liner Mohegan lies, and five miles from Falmouth. The Paris, which sailed from Southampton Saturday, called at Cherbourg, France, and picked up fifty passengers. She left Cherbourg at 6 o'clock Saturday evening. Soon after 1 o'clock Sunday morning, at high tide and in a dense fog, she ran ashore. From the first there was no danger. Lifeboats and tugs were soon literally swarming around the vessel to render assistance. A majority of the passengers, who numbered 380, were brought to Falmouth, where they obtained lodgings for the night.

Captain Watkins reported that his ship was lying comfortably in smooth water and that there was no occasion for any alarmist reports. He reported the passengers and crew all well.

The first intimation of the vessel's striking the rocks was a slight grating sound, which was followed by a second and more pronounced shock. The lookout shouted that there was something looming ahead, but before there was time to reverse the engines the ship had gone on the rocks, 200 yards from the shore.

Captain Watkins had his gig lowered and rode ashore in order to ascertain his whereabouts and to telegraph to Falmouth for tugs to assist his ship. In the meantime rockets were sent up and signal guns were fired.

When dawn broke everybody on board was relieved to find the shore on one side and lifeboats lying near by on the other. The vessel lay with her head to the southwest, the reversing of her engines having put her broadside on the rocks. Happily the sea was smooth and there was no wind. Otherwise there would probably be a different tale to tell.

The dangers of the vicinity were strikingly brought home to the passengers and crew by the masts of the wrecked steamer Mohegan, which are sticking out of the water, and by a miserable bell buoy, which tolls almost constantly, as though sounding a death knell.

When Captain Watkins returned from his trip ashore he learned that there was already considerable water in the hold and the tugs which had arrived stood by ready for any emergency. All the passengers were transferred to the tug Dragon, but beyond the clothes they wore they carried nothing with them. They were landed at Falmouth shortly after 7 o'clock, the local agent of the American line meeting them and providing them with every care and quartering them at the various hotels and the Sailors' home.

The sea was perfectly calm and the only discomfort that the passengers experienced was caused by the slight rain that was falling at the time. Owing to the calmness of the sea the boats could be managed with entire safety.

Perfect order prevailed aboard the vessel. Captain Watkins stood on the bridge giving orders and his perfect self-possession and calmness of demeanor had a reassuring effect upon the passengers. In accordance with the instructions of the captain the women and children were the first to be taken off the ship. Such perfect order was maintained that a passenger described the scene as simply a slow procession of women and children walking in single file to the boats.

It is said that a Falmouth pilot boat showed a warning signal to the Paris, telling the captain that he would put the vessel on top of the Mohegan if he did not alter the course of the ship. The warning, however, came too late and the Paris struck on a ridge to the westward of the Manacles. It is suggested that as this is only their second trip from Cherbourg the officers of the Paris were not familiar with the course.

HAD AN EVENTFUL HISTORY.

New York, May 22.—The Paris, although it had been afloat less than eight years, had had an eventful history. First as the City of Paris it made records for speed in ocean crossing which were sources of pride to its owners.

Then, rechristened as the Paris, it flew the stars and stripes and sailed under American papers. Transferred to the government in time of war, it became a cruiser, known as the Yale, and able to render the government the greatest of service as scout and dispatch boat. Finally, almost immediately upon its return into passenger service, after having been completely refitted, it fell a victim to what seems to have been the merest accident off the Cornish coast.

The last regular trip made by the Paris, just prior to the breaking out of the war, was perhaps the most exciting of which her crew can tell. Loaded with a valuable cargo of guns and ammunition, the boat presented a rich prize to the Spaniards, and so little was known of the weakness of the Spanish fleet that great fear was felt that an effort would be made to capture the Paris on her way home. For that reason Captain Watkins steered out of his usual course and spent a longer time than usual in the passage. The arrival in New York was the signal for a lively celebration.

While in government service the Yale brought an income of $2,500 a day to her owners. On August 31st she was released by the government and the work of refitting her for passenger service was quickly completed. The past spring the Yale, now with her former name, Paris, was sent back into Cuban waters with a party of excursionists on board, among them being John Sherman.

LITTLE ONE IS BADLY BURNED.

CLOTHING CAUGHT FROM A BONFIRE SATURDAY.

Infant Son of Mr. and Mrs. A. C. Pepe Got Hold of Matches With Painful Results.

Robert, the little son of Mr. and Mrs. A. C. Pepe, of 254 West Washington street, was frightfully burned about the head, arm and hand at its home Saturday afternoon. The boy is about 3½ years of age, and while playing about the house climbed upon a pantry shelf and, unnoticed by the family, procured some matches which were placed there for safe-keeping. The little one went out into the yard back of the residence and with the match and some newspapers started a bonfire. As the flames blazed up they caught in the little one's clothing and before assistance could reach him he was very severely burned. The fire was extinguished by rolling the child in the grass, and Dr. Rosenthal attended his injuries. Though they are severe, Dr. Rosenthal has hopes of his recovery, though the outcome cannot be foretold with certainty.

A. C. Pepe, the father of the little one, is connected with the Dittoe grocery.

On Saturday morning at Lakeside park the W. E. A. A. base ball team defeated the East Main street team by a score of 10 to 0. Batteries for W. E. A. A., Bash and Stemen, and for the East Mains, Dittoe, Clausmeyer and Springer.

RACE QUESTIONS

COME UP IN PRESBYTERIAN ASSEMBLY.

COLORED DELEGATE'S POINT.

WAS SENT BY A PRESBYTERY LARGELY WHITE.

OUTRAGES ARE DENOUNCED.

BOOKER T. WASHINGTON AND HIS INSTITUTE.

Minneapolis, Minn., May 22.—Before the Presbyterian general assembly today Rev. W. H. Franklin, a colored minister of Rogerville, Tenn., read an excerpt from a local paper which said that no colored member of the assembly has yet spoken in the debates on account of the fear inspired by the recent outrages in the south, not knowing but they might be held to painful account when they return.

Mr. Franklin stated that the article was without foundation and that in justice to the colored members of the assembly and the people of presbyteries which had returned colored commissioners, there should be a public denial.

Mr. Franklin explained that in the presbyteries of Holstein and French Broad from which he comes there are twenty-four white and five colored ministers and 6,000 white and 1,000 colored communicants, yet this overwhelming white majority had sent him as one of the two ministers who represent them.

Dr. Franklin then offered resolutions refuting the published statement and explaining that the colored commissioners were not restrained from debate because of fear.

Synodical committees were announced and the report of the committee of freedmen was read.

Rev. Graham G. Campbell, of Burkeville, Va., warned Presbyterians against giving money to Booker T. Washington. He said Mr. Washington was doing a grand work. But who would carry it on, he asked, after Washington had gone. In many regions it had been found that Mr. Washington's young men had taken from Presbyterians all their money for the freedmen's board.

The board could spend the money to just as good advantage as Mr. Washington and was a perpetual organization.

THE DAWSON CONFLAGRATION

THE KLONDIKE METROPOLIS SWEPT BY FIRE.

Flames Wipe Out Greater Part of the Town and the Loss Runs Into Millions.

Victoria, B. C., May 22.—No further details of the Dawson fire, April 26th, have been received. The only accident known to have occurred befell a fireman, who was severely hurt about the head by a blazing log which was blown from a burning building. It is stated that the woman who upset the lamp which caused the catastrophe and other occupants of the house have been arrested and may be severely dealt with. A report is also current that only the bank of British North America of the chartered financial institutions were destroyed, and not both it and the bank of Commerce.

Riley, Tobias and Hume, the men who brought out the news of the fire, are reported to have collected hundreds and even thousands of dollars as private mail carriers for the prompt delivery of the communications of which they were the bearers. One of these was addressed to the inspector of the bank of British North America and considerably reduces the amount of the bank's loss by the fire.

It is understood that the record of the bank notes destroyed was consumed with them, but it is nevertheless quite possible that this will not mean lost money.

Three quarters of the entire area of Dawson was laid waste by fire. In all 111 buildings of all sorts and kinds, large and small, were destroyed, nothing being left to show where they stood but heaps of debris when the fire had burned itself out. The flames originated, as have the majority of the fires that have taken place at the mining capital, by the upsetting of a lamp in the midst of a drunken debauch.

The loss is estimated all the way from $1,500,000 to $2,000,000, based on Klondike valuations. There was practically no insurance.

HURT IN A RUNAWAY.

Fred Lang, of 304 West Washington street, was badly injured on Saturday evening in a runaway. His horse became frightened near the corner of Wayne and Calhoun streets and dashed south. When opposite Chestnut street the front wheels caught in the street car tracks, tearing them off and throwing Mr. Lang out. He was taken to his home and Dr. Miller attended his injuries. One of his arms was fractured, a thumb broken, his shoulder dislocated and his body badly bruised.

EDNA HAWKS IS NOW IN HOCK.

LOCATED BY CAPTAIN DASELER IN A BAGNIO.

She Escaped From the Woman's Reformatory Eighteen Months Ago—Home in Muncie.

Sunday evening at 9 o'clock Captain Daseler arrested Edna Hawks, alias Woods, alias Stevens, alias several other names, at Della Rogers' house of ill-fame on Pearl street. A letter received from the superintendent of the Woman's reformatory at Indianapolis stated that among the girls who escaped from the reformatory eighteen months ago was Edna Hawks, of Muncie, and it was believed that she was in Fort Wayne.

Captain Daseler had information which led him to believe that Edna Woods, an inmate at Della Rogers' place, was the girl wanted, and he went there and arrested her. She denied very strongly that she was the person wanted, but finally, after being locked up several hours, admitted her identity.

The girl is a handsome brunette and is a member of a very respectable family in Muncie. She was sent to the reformatory three years ago, and was one of a party of several women who made their escape, but until recently the authorities could not locate her. An officer is expected this evening to take the girl back to Indianapolis.

THE RACE OF THE BIRDS.

The first of the series of pigeon races was held yesterday, it being the 100 mile race from Lafayette to Geneva and Lafayette to Fort Wayne. Thirty-eight birds were released at Lafayette yesterday morning at 6:15 a. m. Of these twenty were owned by Dr. Carl Schilling, fifteen by Henry Beach, of Fort Wayne, and three by W. B. Hale, of Geneva. The first bird to arrive home was one owned by W. B. Hale, at Geneva, and the time was immediately telegraphed to this city. The Fort Wayne birds then began arriving and in the following order: First, Hale; second and third, Beach; fourth to eighth, Schilling. Mr. Hale received the first prize, which was donated by Mr. Bartholomew, of New Jersey, for the first bird, as well as the special prize for the highest per centage of birds first in. The special prize was a box of cigars donated by Frank Gruber. Mr. Beach received the second premium offered by Dr. Schilling and the third, offered by Mr. Hale. The second race will be held next Saturday from Bement, Ill., to Fort Wayne, in which there will be more birds than participated in yesterday's race. Owing to several losses of birds while in training, C. F. Rehling and C. G. Pape did not race their pigeons yesterday.

PLANTS FOR THE PARKS.

A large force of workmen, under Superintendent Goers, are engaged in putting in plants in the different parks of the city. Owing to the cool weather, only the most hardy plants are being put in, but it is expected that the rest will be planted in a short time. There are 100,000 plants to be distributed among the parks. Mr. Goers having raised many more this year than in any preceding year.

BIG FIRE IN BROOKLYN.

New York, May 22.—Fire of unknown origin started today in a building in Freeman street, Brooklyn, used by Vells Brothers as a planing mill, and spread rapidly until nearly an entire block was destroyed. The total loss is estimated at $350,000. The flames extended to Eagle and Kent streets, destroying a number of dwellings. The property destroyed included four six-stories and a planing mill.

Ed. Biddle is visiting with his parents on Ewing street, for a few days. Mr. Biddle spent several months in Cuba with the army of occupation and was stationed for some time in a small town near Havana.

ALL NOT SMOOTH.

SOME DIFFICULTIES AT THE PEACE MEETING.

CHOICE OF OFFICERS HARD.

ENEMIES OF PEACE MAKE UP FALSE STORIES.

GERMANY IS MISREPRESENTED

ANOTHER SESSION TO BE HELD TUSDAY.

The Hague, May 22.—The disarmament committee of the peace conference meets at 10 o'clock on Tuesday morning; the committee on the laws of warfare meets during the afternoon of the same day, and the committee on arbitration meets on Wednesday. The first session of each committee will be devoted to the election of officers.

The chiefs of the delegations have had frequent conferences with the view of arriving at an agreement regarding the choice of officers of the committees. But apparently many difficulties have arisen. As it has been finally settled, many false and exaggerated reports have been circulated regarding these hitches. For instance, it has been said that Count von Munster, the German ambassador at Paris, and head of the German delegation, would withdraw from the conference. Such stories must be received with caution, as persons hostile to the acts of the conference have been busily engaged in spreading distrust. The story about Count von Munster probably arose from the fact that his name does not appear as a member of any of the committees, while all the other chiefs of delegations have joined one or more committees. But, it is pointed out that delegates and alternate members of a committee are privileged to attend its sessions and participate in the discussions.

HAVE NO NEWS OF A FIGHT.

DETROIT'S REPORTED BATTLE DISCOUNTED.

Washington Officials Have No Advices of Extreme Measures in the Bluefields.

Washington, May 22.—The navy department has had no report from the captain of the Detroit of any difficulty with the Nicaraguan officials or of any collision with the Nicaraugan gungoat San Jacinto. The Detroit arrived at Bluefields May 11th, and since that date no report has come from her. She was to take on board there the body of the late General McCauley for transportation to the United States.

As the latest telegraphic and mail services from the American officials at Bluefields and other points in Nicaragua contained nothing to indicate any serious friction between the United States and Nicaraugan officials, Secretary Long said that he was not inclined to credit the report that a United States ship had been called upon to resort to extreme measures. Secretary Hay also said that no word had been received at the state department on the subject, and, therefore, he was not prepared to believe that anything of the kind had occurred.

The latest advices from Nicaragua were to the effect that negotiations for a settlement of the recent customs differences were progressing with every indication of an amicable settlement.

AS SEWER OUTLET.

The Fort Wayne officials have received word that Auburn has decided to build eleven miles of sewers and as an outlet will use Cedar Creek, which stream flows through the northern part of Allen county and empties into the St. Joe river. The water of the St. Joe has for years been considered the purest in this vicinity and it is feared that the sewage from Auburn will so pollute the water that it will be unfit for any use. What action the Fort Wayne authorities will take has not been determined. Bids for the Auburn work were opened Saturday and Joseph Derheimer, of this city, was one of the lowest bidders.

Miss Emma Eckles, who has been at Pope hospital for the past three weeks undergoing treatment, has returned to her home at 59 Riverside avenue.

A LOVELY WOMAN

is the fairest flower in the garden of humanity. Every woman may be lovely after her own style, with sparkling eyes and rosy cheeks, and with every line of beauty fully developed.

Pabst Malt Extract, The "Best" Tonic, will bring out her beauty, fill in the hollows, cover up the bones and angles, round out the curves, and develop all her lines of beauty. It is a flesh and tissue builder that will make any woman plump and round and rosy, as she was meant to be. Try it yourself and your mirror will show you a pleasant surprise.

Grand Rapids	9	11	.450
New Castle	8	10	.444
Dayton	6	12	.333
Wheeling	6	13	.316

The result of yesterday's game between Fort Wayne and Youngstown is easily explained. Bill Carney pitched gilt-edged ball and Fort Wayne's new twirler, Guese, was batted when hits meant runs.

There was a large crowd at the ball park, probably the largest that has ever seen a game in this city in years, and while they all wanted the home team to win, none was there who was not satisfied that Carney deserved victory. The star twirler of the Youngstowns stood in the box, smiled and sent the sphere over the plate in such a manner as to puzzle the oldest heads on the team. With Guese in the box the "fans" had hoped to see a closer game, but the new twirler could not fool Truby's Giants and they kept continually hitting the ball and in three innings bunched enough hits to earn six of their seven runs. The support of both twirlers was first-class, although Letcher was slow in fielding two singles batted to center field.

The story of Fort Wayne's run-getting is told easily. Jack Glasscock, the first batter up in the ninth inning, hit the second ball pitched over the left field fence for a home run.

The visitors' first run was scored in the second inning after two men were out. Ganzel hit a liner against the center field bank for two bases and scored on Berte's single. Berte went out from Hollingsworth to Flood on Latimer's grounder.

In the fourth the Giants scored three more. Connors went to first on balls and stole second, scoring on Pender's two-bagger. Ganzell flied out to Miller and Pender scored on Berte's second single. The Youngstown short stop went to third on Latimer's single and scored on Carney's hit, which the star twirler attempted to stretch into a two-bagger and was out at second.

Three more runs were earned in the seventh inning. After one was out Van Buren, McCredie and Connors made two-base hits and Truby and Pender singled, three runs resulting. Score:

Attendance—2,100.

SATURDAY'S GAME.

The last game of the Wheeling series was a heart breaker and not until the last Wheelingite was retired in the ninth was there a certainty as to which club would win. In the ninth Babb was about to cross the plate with the winning run, as he supposed, but when he reached the rubber Bergen met him with the ball, which had been fielded in by Belden on one of the prettiest throws of the season. Babb knew better than to try and score, but Lytle was on the coachers' line and made him try it. Score:

Ft Wayne. 0 0 1 0 0 3 0 0 0— 4
Wheeling . 1 0 0 2 0 0 0 0 0— 3

Batteries—Foreman and Bergen; Poole and Hunt. Base hits—Fort Wayne, 7; Wheeling, 8. Errors—Fort Wayne, 3; Wheeling, 0.

OTHER INTER-STATE GAMES.

DAYTON, 3-0; MANSFIELD, 1-1.

Dayton, O., May 22.—Mansfield and Dayton played a "double header" and broke even on results. Both of the games were hard battles, the first one being ten innings. The second one was a pitchers' battle and was won in the last inning, like the first game. Score for the first game:

Dayton . 1 0 0 0 0 0 0 0 0 2— 3
M'field . 0 0 0 1 0 0 0 0 0 0— 1

Hits—Dayton, 10; Mansfield, 6. Errors—Dayton, 2; Mansfield, 0. Batteries—Dayton, Watkins and Donahue; Mansfield, Miller and Belt. Time of game—1:50. Umpire—Colgan.

Second game:

Mansfield . 0 0 0 0 0 0 0 0 1— 1
Dayton . . . 0 0 0 0 0 0 0 0 0— 0

Hits—Mansfield, 4; Dayton, 4. Errors—Mansfield, 3; Dayton, 4. Batteries—Mansfield, Heiberger and Donahue; Dayton, Hackett, Law and Belt. Time of game—2:00. Umpire—Colgan.

TOLEDO, 9; NEW CASTLE, 5.

Toledo, O., May 22.—Toledo won an uninteresting victory from the New Castle team before a large crowd. Minnehan and Smith were liberal with their passes, eleven men being walked to first base. All but one of Toledo's runs were traceable to these gifts. Score:

Toledo . . . . 2 1 0 5 0 0 0 1 0— 9
N. Castle. . 1 0 3 0 1 0 0 0 0— 5

Hits—Toledo, 11; New Castle, 5. Errors—Toledo, 5; New Castle, 3. Batteries—Ewing and Arthur; Minnehan, Smith and Barclay.

GRAND RAPIDS, 6; WHEELING, 0.

Grand Rapids, Mich., May 22.—Wheeling was shut out through inability to hit Altrock effectively. Their six hits were none better than singles and were widely scattered. The score:

G. Rapids. 0 0 0 2 2 0 2 0 0— 6
Wheeling . 0 0 0 0 0 0 0 0 0— 0

Hits—Grand Rapids, 9; Wheeling, 6. Errors—Grand Rapids, 1; Wheeling, 1. Batteries—Grand Rapids, Altrock and Cote; Wheeling, Young and Twineham.

PLAYERS RELEASED.

The Fort Wayne management has decided to carry only twelve players this season and the weeding out process commenced this morning when Manager Glasscock was instructed to release Keib, Whissen, Brodie and Zinram. Cy. Swaim has been signed and is expected to arrive in the city from Milwaukee this evening. The team had eight twirlers, including Herr, and they could not all be carried, and it was decided to retain Reiman, Foreman, Guese and Swaim. Reiman has demonstrated that he is able to hold his own this season, and Foreman made a fine showing the first game. The first exhibition by Guese was not high class, and Swaim has not done well with Milwaukee, having lost every game he pitched, according to yesterday's dispatches. Kelb pitched two fine games here, but was batted hard in the Toledo game. The surprise was the release of Zinram, who had been hiting above .300 and was undoubtedly one of the three fastest runners on the team. His back-stopping was good, but the management seem to be afraid of his arm. Bergen will do all the catching, and if he should be injured Miller will go behind the bat. Hollingsworth is a pretty fair catcher, too. Some of the releases will not be relished by patrons of the game, but if the team plays good ball the public will go to see the games, and the management is responsible only to themselves if any mistakes are made in making changes. Eight of the twelve players retained are former Western leaguers, Bergen, Belden, Reiman and Flood being the only players who have not played in Ben Johnson's league.

NOTES OF THE GAME.

Guess Jack Glasscock told only the truth when he said that Will Carney was the best pitcher in the Interstate league.

Every man in the press box believed that Latimer kicked the ball instead of Guese when the latter was called out for interfering with the ball.

In Saturday's game Belden and Hollingsworth made two-baggers and Letcher hit for the first three-bagger of the season on the home grounds.

Guese had plenty of control yesterday, but his curves did not fool the Giants. He remarked once as he came back to the bench, "They hit anything."

New Castle has a much stronger team than Youngstown except that Carney is a better twirler than any pitcher on Manager Bright's staff of slab artists.

Foreman made two balks and Poole one in Saturday's game. The "Brownie" was effective when men were on bases and promises to be the star twirler of the team.

Saturday's Interstate games resulted as follows: Dayton, 6; Mansfield, 1; Grand Rapids, 3; New Castle, 2; Toledo, 9; Youngstown, 1. The National scores were: Cincinnati, 8; Brooklyn, 4; Baltimore, 9; Chicago, 5; Cleveland, 10, Philadelphia, 4; Washington, 7; Pittsburg, 6. Rain prevented games at St. Louis and Louisville.

The single and married men of the Chair Warmers played a game of base ball yesterday at Wagner's plat. The game resulted in a victory for the married men by a score of 14 to 10. Batteries, S. C. W.'s, Albright and Lacy; M. C. W.'s, Miller and Trowbridge. One of the main features of the game was the twirling of Miller, for the married men. Twenty-six errors were made by the singles and sixteen by the married men.

THE CITY LEAGUE.

The games in the City league yesterday resulted as follows:

South Waynes, 25; Newsboys, 1. Batteries—Farnan and Stevens; McGuire and Tieman.

Nebraska, 13; Broadways, 12. Batteries—Johnson and Craig; Hilliker and Smith. Second game—Nebraskas, 9; Broadways, 3. Batteries—Johnson and Craig; Ramsey and Keller.

The Sports won both games from the Blue Rocks. Score, first game—Sports, 20; Blue Rocks, 16. Batteries—Hildinger and Perrey; Ertel and Cook. Score, second game—Sports, 19; Blue Rocks, 11. Batteries—Redman and Perrey; Miller, Wendel and Horstman.

The Ponies and the Royals broke even, the latter wining the first game and the Ponies the second. Score, first game—Royals, 4; Ponies, 2. Batteries—Tolan and Eggemann; Shoyer and Oddou. Score, second game—Ponies, 7; Royals, 5. Lauer and Crance; Kemp and Eggemann.

DEATH'S HARVEST OF A DAY.

MRS. SUSAN L. FERGUSON'S LIFE ENDS.

Was Stricken With Paralysis and Lived But a Short Time—

The Other Deaths.

FERGUSON.

Mrs. Susan L. Ferguson, wife of County Commissioner M. A. Ferguson, died early this morning at her home, 20 Spy Run avenue, from a stroke of paralysis received some hours before. Mrs. Ferguson was one of the most esteemed residents of this city, and her death will occasion a wide feeling of profound sorrow. She had been in poor health for some time but yesterday seemed to be feeling better than usual, and went to the kitchen last evening to assist in preparing the evening meal. About 6:30 o'clock she was stricken with paralysis, and passed away at 1:30 this morning.

Susan L. (Hopson) Ferguson was born at St. Marys, Ohio, October 1, 1839, and was united in marriage to M. A. Ferguson August 27, 1857. They resided at Delphos, Ohio, for a time, and about fifteen years ago removed to Allen county, locating on a farm about four miles north of this city. Here they lived until last fall, when they took up their residence in Fort Wayne. Mrs. Ferguson was nearly sixty years of age, and was the mother of ten children—nine of whom, with the aged husband, survive her. The children are Mrs. Henrietta Reul, of Delphos, Ohio; Mrs. Mary Fritz, Mrs. Lucy Robyn and Mrs. Grace Erdman, of St. Louis; Walter Ferguson, of Whitley county; Anna, John and Gus Ferguson, of this city, and M. A. Ferguson, jr., of Eaton, Ind. The funeral services will occur at the residence on Thursday afternoon. Further announcement will be made later.

GUNDER.

Mrs. Sarah A. Gunder, wife of George Gunder, died at 1:30 o'clock this morning from consumption at her home, 223 Wells street, after an extended illness. Mrs. Gunder was 60 years of age, and besides her husband leaves four children—Mrs. Mary Gloyd, and Henry, Emanuel and Charles Gunder. The funeral announcement will be made later.

LEIZE.

Christian G. Leize died quite suddenly at his home, 11 Esmond street, at 9:30 o'clock Saturday night from paralysis of the heart. He had been in poor health for some time and after eating supper Saturday evening complained of difficulty in breathing. He retired at 8 o'clock and his wife followed an hour later. At that time Mr. Leize was awake and in response to his wife's inquiry as to how he was feeling he replied that he had pains in his chest and could hardly breathe. After giving her husband all the assistance possible Mrs. Leize dropped asleep, but was awakened half an hour later by the heavy breathing of her husband. She arose hastily and summoned neighbors and physicians, but before they arrived Mr. Leize was dead. Coroner Barnett was notified and made an investigation, attributing the death to paralysis of the heart. Mr. Leize was 50 years of age and a native of Germany. He was employed in the Koehler brickyard. Besides his wife, several children survive him. The funeral services will be held from the residence, at 2 o'clock Tuesday afternoon.

BARNER.

Mrs. Philipena Barner, wife of Charles Barner, died at 6 o'clock Sunday morning at the family home, 155 Montgomery street, from a complication of diseases. A post mortem conducted Sunday afternoon by Dr. Drayer, assisted by Dr. Duemling and Dr. Bower, disclosed a badly diseased condition of the liver and intestines. Mrs. Barner had been a resident of Fort Wayne for many years. She was born in Germany fifty-nine years ago, and besides her husband leaves four children—Mrs. H. J. Bradley, Mrs. H. C. Stites, Miss Emma Barner and Henry Barner. She was a sister of Mrs. Henry Stellhorn. The funeral will be held Tuesday afternoon at 1:30 from the residence and at 2 o'clock from the St. Paul's German Lutheran church. The pall bearers will be William Stellhorn, Martin Foellinger, Louis Niemeyer, Jeffrey Lee, George Wilde and Adolph Hagist.

TITUS.

Mrs. Louisa Titus, wife of Theodore Titus, the well-known Pennsylvania engineer, died at 9 o'clock this morning at her home, 130 Buchanan street, at the age of 59 years. Mrs. Titus has been in poor health for some time, and a few weeks ago sustained a fall, breaking her leg. Her frail health gave way still more under the shock of the accident, and she passed away this morning. Mrs. Titus has been a resident of this city many years. Her husband and three children survive her. The children are Mrs. Mamie Patterson, Miss Grace Titus and Charles Titus, who is a Nickel Plate engineer. The funeral arrangements will be announced later.

GLASS.

Mrs. Harriet Waters, of 104 East Wayne street, today received the sad intelligence of the death of her mother, Mrs. Nancy Glass, which occurred at her home near Golden City, Mo. Mrs. Glass was in the 89th year and was born in Lancaster, O. She came to Fort Wayne in 1835, and resided here until 1878. Her first husband died in 1845. She was the widow of James Glass, near Ossian, who died in 1865. Mrs. Glass went to Missouri more than twenty years ago. Many of the older residents of this city will remember her.

GERDES.

Henry Gerdes died Sunday night at the hospital from pneumonia, from which he had been suffering for some days. Mr. Gerdes was 68 years of age. The remains were removed to the home of his son-in-law, Matthias Bugert, 88 Home avenue. The funeral services will be held Tuesday morning at 9 o'clock from St. Mary's church.

BROWN BOUND OVER.

Joe Brown had his preliminary hearing on a charge of larceny before Mayor Scherer this morning. Hiram Watson, his victim, was brought over from jail to testify, but did not seem to remember much about the case. Another old soldier, however, saw Watson give Brown a $5 bill and then saw the change handed back for $1. John Langard testified that he changed a $5 bill for Brown and this conclusive evidence led the mayor to bind him over, fixing bond at $100.

Doctors Coming --TO-- Fort Wayne.

A staff of eminent physicians and surgeons from the British Medical Institute have, at the urgent solicitation of a large number of our representative citizens, decided to establish a permanent branch of the Institute in this city. Quarters have already been secured in the Fruit House block, rooms 6 and 7. The office will be open and ready to receive patients next Wednesday morning.

These eminent gentlemen have decided to give their services entirely free for three months (medicine excepted) to all invalids who call upon them for treatment between now and July 1st. These services consist not only of consultation, examination and advice, but also of all minor surgical operations.

The object of pursuing this course is to become rapidly and personally acquainted with the sick and afflicted, and under no conditions will any charge whatever be made for any services rendered for three months, to all who call before July 1st. Therefore, the most humble in circumstances can avail themselves of the services of these eminent physicians.

The doctors treat all forms of disease and deformities, and guarantee a cure in every case they undertake. At the first interview a thorough examination is made, and, if incurable, you are frankly and kindly told so, and advised against spending your money for useless treatment.

Male and female weakness, catarrh and catarrhal deafness, also ruptures and all diseases of the rectum are positively cured by their new treatment.

Office hours from 9 a. m. to 8 p. m.
No Sunday hours.

LOCAL NEWS.

Born, to Mr. and Mrs. W. C. Patterson, of 134 Buchanan street—a son.

G. H. Patterson, of Angola, was among the Fort Wayne visitors today.

Chas. Sshooley was sent to jail by 'Squire France for cruelty to animals.

Ad. Link, who has been ill from typhoid fever for some time, is now convalescent.

Arthur H. Dougall, of Boston, arrived in the city last evening for a visit with friends.

Miss O. Geerken, who was visiting friends in Churubusco, arrived home last evening.

There are already nineteen entries for the Randall road race to be ridden on Memorial day.

Mrs. Cox, of Florida, is the guest of Mr. and Mrs. Milo H. Sechler, of South Calhoun street.

Mesdames Soest and William Scherer have gone to Soest Station, nine miles south on the Grand Rapids road, to spend a week with friends.

Beginning Saturday young ladies employed in the Wurch Garment factory are given a half holiday on Saturdays during the summer months.

Mrs. John Kline and Mrs. Henry Kline, of Huntington, spent Sunday and today in Fort Wayne with relatives. The ladies drove up in a buggy Saturday.

C. F. Regedanz is erecting a building on South Hanna street and will open a drug store there in about a month. Mr. Regedanz has been connected with the Meyer drug store for some years.

A pleasant surprise party was tendered Mrs. P. O'Ryan Friday night at the home of her son, Councilman John O'Ryan, on Baker street. About fifty guests enjoyed progressive pedro and dancing and a delicious lunch was served.

Eugene Thayer, of 502 South Hanna street, an employe of the DeWald Dry Goods Co., had his foot badly crushed between the elevator and the floor on Saturday. He was removed to his home, where Dr. Miller attended his injuries.

A three-year-old son of Henry App met with a severe accident on Saturday. He was playing with a sharp pointed stick, when he fell on the pavement, the stick entering the mouth and penetrating the roof of the mouth. Dr. E. J. McOscar attended the child.

John Shilts and two daughters and Mrs. George Wymer, of Decatur, Ind., arrived in the city Saturday morning and will be the guests of Mr. and Mrs. William Schotemeyer for a few days. The visitors are en route to Bunker Hill, Kas., where they expect to reside in the future.

A new case of diphtheria has developed at the home of George S. Hall, 106 Barr street. A little daughter is affected with the disease, and the house has been quarantined. This is the fourth case in the house during the past few months, other children having it in the early part of the spring.

On Saturday Dr. W. M. Enslen amputated the great toe from one of the feet of Joseph Lee, an inmate of the county asylum. The member was in a very painful and threatening condition, the result of diseased tissue. The patient, who is a citizen of Cedar Creek township, is getting along nicely.

Mrs. F. B. Humpsher, assisted by Mrs. C. O. Troxwell and Mrs. John Stinman, very pleasantly entertained the members of the Grand Fraternity Friday evening at her home on South Calhoun street. The house was beautifully decorated with ferns and carnations. The tables were done in pink, sweet peas being the decorations.

Mrs. Alex Cour left today for Chicago to join her husband, who has a position in that city. Mrs. Cour was a prominent worker in the Eastside Baptist mission and last evening the ladies of that organization tendered her a very pleasant surprise party. Mrs. Cour was presented with some handsome silver knives, forks and spoons as a slight token of the esteem in which she is held.

Mr. and Mrs. Charles Pennington, of Jamestown, Ohio, have announced the engagement of their daughter, Mary, to William S. Turner, of this city. The wedding will occur at the home of the bride on June 14th. Miss Pennington is a niece of Mrs. James A. Armstrong and a charming young lady. Mr. Turner is a member of the firm of J. A. Armstrong & Co. and is one of Fort Wayne's most popular young business men.

Dr. J. W. Younge has received a very handsome gold medal which he will present to the model cadet at Culver Military academy this year. The medal is a most beautiful one of solid gold, weighing two ounces, and is valued at $50. It is in the form of a star, the points of which support a gold circlet with the inscription "Culver Military Academy, 1899," inlaid in blue enamel. The reverse side is inscribed "A Model Cadet." The badge is suspended from a gold cross bar with red, white and blue ribbon, and the whole forms an emblem which the fortunate recipient, whoever he may be, will value highly.

Mrs. G. E. Bursley is at home from Terre Haute.

Dr. E. F. Wagner has returned from a trip to Cleveland.

Mrs. M. G. Brown is spending this week with Toledo friends.

Miss Ida M. Burns has been visiting in Huntington for several days.

Mrs. George Potter left for Ashland, Ohio, this morning, to visit her old home.

Mrs. J. M. Liggett has returned from Huntington, where she visited friends for a week.

Silas Jennison went to Detroit yesterday for a visit with his parents and will be absent a week.

Mrs. Julia Randall and daughters and son, Fay Randall, left today for New York to remain several months.

Miss Rachel Hackett, who has been visiting relatives in the city for several months, left for Pennsylvania this morning.

Louis Merz has purchased property at the corner of Calhoun and Williams streets and will soon erect some modern flats there.

Corporal Ed Biddle, until recently a member of the 202d New York infantry, is visiting friends in the city. Fort Wayne was formerly Mr. Biddle's home.

The Wayne Tent band has been engaged for Memorial day. They have ordered a lot of special music for memorial services, and will appear for the first time in their new uniforms.

The W. C. T. U. will hold a meeting Thursday afternoon at 2:30 at the residence of Mrs. Carina Banning, 181 Clinton street. Miss Downey, the evangelist, will be present and address the meeting.

The last meeting of the Ladies' Reading club will be held tomorrow afternoon at 2:30 at the home of Mrs. John Jacobs, on Spy Run avenue. The reports of the delegates to the Indiana Union of Literary clubs will be read.

It has been the boast of Klondikers that Dawson City had money to burn, but no one suspected that it was kept to feed a bonfire.

It is not too late for Senator McMillan and Secretary Alger to send delegates to the peace congress. It might result in arbitration if not in a complete disarmament.

When Admiral Dewey runs into the first of the $100-a-plate dinners in New York he will wish he had tried to get in home by the back door as he had a chance to do.

One of the best evidences that the czar is in earnest in his various attempts to benefit humanity is his purpose to modify greatly, if not to abolish altogether, the exile system that is so dark a disgrace to the Russian empire.

The mayor and superintendent of police have announced that they will not permit the slot-machine gambling evil to again break out in Fort Wayne. It is to be hoped that they will be vigilant and vigorous in this determination. Of all the forms of the gambling evil the slot machine is most insidious and the most difficult to deal with. It teaches boys to gamble and it is no great step from the slot machine to the poker table.

A few cities in the United States have tree-planting associations composed of private individuals, and they can be credited with good work. One city, Minneapolis, gives municipal encouragement to tree-planting, and the beauty of its residence streets is noted by visitors. In Paris the shade trees have long been looked after by a systematic department. Along the boulevards and avenues are 86,400 trees, all registered and constantly inspected. Plane trees are the most numerous, though there are many chestnuts and elms. The public seats under them number 8,300. Their maintenance costs $65,000 a year. Paris would not part with them for any money.

L. E. Quigg, chairman of the republican county committee of New York, and one of Senator Platt's trusted lieutenants, has just declared in a speech to his committee that the independents are masters of the situation, and should be allowed to nominate men who are "reasonably republican" for the local elections of next November. Inasmuch as Mr. Quigg is very close to Mr. Platt, and was mainly instrumental in having the regular republican organization nominate General Tracy instead of endorsing Seth Low in the last mayoralty campaign—an actionwhich resulted in the election of Van Wyck—the speech is considered significant.

UP THE AMAZON.

The report received by the United States navy department of the trip of the United States gunboat Wilmington up the Amazon river, 1,000 miles above Manaos, the supposed head of steam navigation, is a very interesting document.

The Amazon is the great river mystery of the world. Its mouth was first discovered by Europeans in 1500, and every extended voynge upon it since has been more or less a voyage of discovery. The largest river in the world, in point of volume, it traverses the largest and densest forest in the world. Both the river and the country through which it flows have the most to reveal to the explorer and traveler on any errand bent. The Congo in Africa is a far better known river and the object of more interest and enterprise than the Amazon in South America.

So far as the exploration of the Amazon is concerned North Americans have been more interested than the South Americans. Captain Herndon, in the employ of the United States, made a careful survey of these mighty waters in 1850. He estimated the navigable length of the Amazon, including one of its upper tributaries, the Ucayale, at 3,500 miles. But in truth the Amazon opens up a system of navigable waters covering the north half of South America. The voyager, by making a portage, may reach the waters of the Amazon those of the Orinoco and emerge from that stream into the Atlantic and the Caribbean sea. While the greater portion of the Amazon flows through Brazil, Peru and Ecuador are reached by it. The Wilmington penetrated far into Peruvian territory.

The Wilmington in her recent voyage stirred up the natives on the United States expansion question. At the junction of the Rio Negro and the Amazon a city called Manaos was found. In the belief that it was the last town on the river, Manaos had grown to a population of some 40,000, and the people were disposed to resent the action of the Wilmington in going farther up the stream. The American consul was made the object of some unfriendly demonstrations, as were the pilots who assisted the American vessel. The Wilmington, however, proceeded in North American fashion, and found a thousand miles of channel beyond Manaos and, but for lack of fuel, could, Captain Todd believes, have gone three hundred miles farther.

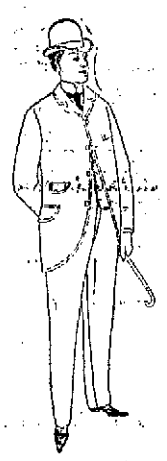
And to this tale hangs another. At the present time the United States is doing a great deal of advertising throughout the world and extending its business in various directions. Why should not the great valley of the Amazon be the scene of an American boom? Our interests are extending in that direction. We have Porto Rico to the southward. We have an equity in Cuba. We shall develop sense and enterprise enough eventually to construct the Nicaragua canal. The American name and fame is, so to speak, widening out in the tropical world. Has not the Wilmington penetrated a highway which may be opened for business?

The Amazon is an equatorial river; it runs all its length through a tropical country. One question to be settled is whether the tropics is of any use for civilized life and business. The United States might experiment on the line of the Amazon.

PRAISE FOR MISS SMYSER.

Of a Fort Wayne soloist who contributed to the program of the recent meeting of the Federation of Women's clubs at Terre Haute, the Terre Express says: "Miss Helen T. Smyser, of the Fort Wayne Morning Musicale, sang a beautiful solo from Liza Lehman's 'In a Persian Garden.' Miss Smyser is accounted one of the finest sopranos in northern Indiana, and her performance of last night did not bely her reputation. Her voice is clear and under perfect control, and her presence is most attractive."

The annual conference of the united missionary societies of the city will be held in the Third Presbyterian church on Thursday afternoon. There will be two sessions, one in the afternoon and one in the evening. Lunch will be served in the interval between the meetings by the ladies of the church.



If you have a thought that leans towards a Spring Suit, the garments are here to clinch it. Our display of

Men's Suits

AT

$8.00, $10.00, $12.00 and $15.00

Has no equal in this city.

The Styles and Patterns are entirely away from the ready-made idea, and, outside of this store, can only be had at the first-class merchant tailor shops by paying double our prices. Wear one of these Suits this season and you will give the merchant tailor the go-by hereafter. They are sure to please.

3/4 OF THE Mothers of Fort Wayne TRADE HERE.

That means we give a little more for the money than our competitors.

Our strong attractions this Spring in Boys' Suits are retailing for

$2.00, $3.00, $4.00 and $5.00.

A particularly strong card with the youth of Fort Wayne is our line of every-day garments, made in all the Spring styles and woven in plain and fancy Cheviots, Cassimeres and Worsteds, at

$5.00, $6.00, $8.00 to $12.00.

You will see great value sticking out of every seam of the garments.

HAVOC WROUGHT ON QUEENSLAND COAST.

Nearly Four Hundred Lives Lost in the Storm—Pearl Fishers Meet Death.

Victoria, B. C., May 22.—Shortly before the just-arrived steamer Miowera left Sydney, Australia, for this port, the cutter Mystery returned to Cooktown from the scene of the recent disaster by hurricane on the north Queensland coast, by which practically every vessel engaged in the pearl fishery was wrecked and much property lost afloat and ashore.

The sights that met the eyes of the relief expedition along the desolated coast were horrifying beyond description. In one place where a picturesque fishing village, with a population of 300, had stood neither house nor tree nor living thing was left. The site of the little settlement looked like new plowed land and the survivors among the fishing folk had fled for safety to an inland town, twelve miles distant.

There and further along the coast mangled bodies of men and domestic animals were found. Several were rescued with some difficulty, wedged in the branches of trees that had defied the storm, where they had been blown from distances as great as a quarter of a mile.

The Mystery's officers and crew recovered in all fifty-eight bodies, of which eighteen were identified and claimed by mourning relatives. Of the remaining forty, thirty-six were natives, whose remains were given respectable burial in one great trench.

The Mystery party found large fish and wreckage thirty and forty feet above high water level, and trees and vegetation levelled for upwards of fifty miles along the coast.

An official report says that eighty-six vessels were wrecked and that 385 people lost their lives.

NORTHERN INDIANA NOTES.

A home telephone company has been organized at Decatur, headed by ex-Mayor B. W. Quinn.

Christian Smith, of Auburn, had his arm caught in a buzz saw and ripped off above the elbow.

Sheriff Matthews, of Kosciusko county, is dangerously ill and will be taken to the Battle Creek sanitarium.

Philip Sullivan, a well-known politician of Peru, was severely injured in a runaway accident. His jaw was fractured.

William McClellan, a citizen of DeKalb county since 1845, is dead at his home near Auburn, at the age of seventy-four.

Mrs. Hugh Bragg, of North Webster, is the mother of triplets, two boys and a girl, born a few days ago. The infants weighed six pounds each.

A large amount of counterfeit coin is circulating in northern Indiana. William Kulp was arrested at Mishawaka as concerned in the circulation.

Editor Zimmerman, of the Valparaiso Messenger, has announced that in the future his daily will be independent and the weekly the same old democratic exponent.

The Elkhart council has decided to pave Second and Pigeon streets with asphalt. The roadways will be thirty feet wide and either Trinidad or Bermudez asphalt will be used.

John Nichols, a farmer living a few miles east of Waterloo, was killed by a Lake Shore freight train near that place Thursday night. He was thirty years old and well known.

Miss Nora Robinson, of Logansport, ran away to Terre Haute, where she was married Saturday to William Gaston, of Evansville. The young lady's parents objected to the match.

Mrs. Julia E. Work has sent out invitations for a grand opening of her Plymouth orphanage—Brightside Children's Home at Plymouth—which is to occur Wednesday, May 24th.

The Logansport police have suppressed the circulation in that city of the Indianapolis People, a scurrilous publication that is more or less familiar to northern Indiana residents.

Frank Bridge, a well known farmer residing near Laud, in Whitley county, was kicked in the abdomen by a horse and after two days of suffering died from internal injuries Thursday night.

Center township, Porter county, will vote, June 13th, on a proposition to gravel twenty-five miles of road in the township. The county commissioners have so ordered. The cost of the work contemplated is $39,160.

Frederick W. Miller, who was appointed by Judge Wilson to a position on the Elkhart county board, under the new reform law, has refused to qualify on the ground that he is opposed to the provisions of the law. He is a republican.

The band of the One Hundred and Sixtieth Indiana regiment has gone to pieces owing to lack of patronage in the tour it has been making in Indiana since the regiment was mustered out. The band was one of the best musical organizations in the Spanish war.

The hearing of Omar F. Neff, the Milford attorney who has disbarment proceedings pending against him, will take place on the 26th at Warsaw. Mr. Neff claims the charges against him were trumped up by political opponents.

George Brown, formerly of Defiance, Ohio, but now a tramp, sought a bed on the Big Four railway track a short distance north of Milford and was struck by a passenger train and so badly injured that he will not live. He is but eighteen years old.

William Appy, who for several weeks received the honors, ovations, free drinks and cigars of a hero at Muncie and other cities where he posed as a hero of Dewey's victory at Manila, is in jail at Bluffton on a charge of horse-stealing. The fellow is an imposter.

John Beerbower, a farmer in Huntington county, was selling a bull to a butcher and was telling the buyer about the animal's gentle disposition when it turned upon him and attacked him. Beerbower was thrown and tossed by the brute several times, and received injuries from which it is thought he cannot recover.

City Marshal Grund and Postmaster Williamson, of Columbia City, engaged in a rough and tumble fight in the private office of the postmaster. Williamson is also editor of the Mail, and has been making free and uncomplimentary use of the marshal's name in the columns of the paper. Grund called at the office to protest, and a fight was the result. The postmaster drew a revolver, but did not use it.

Margaret Bailey, known to all the country around as "Aunt Peggy," died last Friday at her home near Monument City, Huntington county, at the age of 103 years. "Aunt Peggy" was a native of Kentucky, where her life was spent until 1865, when she went to Huntington county to make her home with relatives. She was never married. She was a woman of strong mind, masculine courage and superb physical powers. Up to a year ago she retained her mental faculties almost undimmed. The remains of the aged woman were buried Sunday in the cemetery at Monument City.

Call and convince yourselves of the great bargains to be had at

MEGENTHEIM'S Great Half Off Removal Sale, 26 CALHOUN STREET.

A PLEA FOR THE SABBATH.

ADDRESS BY THE MINISTERIAL ASSOCIATION.

Opposed to Sunday Base Ball, Sunday Excursions and Other Forms of Desecration.

The Fort Wayne Ministerial association discussed Sunday base ball, Sunday excursions, Sunday saloons and other common forms of Sabbath desecration. There was a full attendance at the meeting this forenoon in the Berry Street M. E. church and the expression of views was general, vigorous and unanimous. The following address to the public, together with resolutions, was read and adopted unanimously by the association:

AN ADDRESS TO THE CITIZENS OF FORT WAYNE.

It is well known that the Lord's day, commonly called Sunday, has had an important place in the history of Christian civilization, and in the development of our own republic; and that it has been recognized as a fundamental part of the civil laws of our nation, as a day of rest from toil and as affording opportunities for moral and spiritual culture.

Furthermore, the rest day is proven by experience to be a necessity for man's physical welfare, a necessity in promoting the intelligence and morality of the people, and, therfore, a necessity for the maintenance of free institutions.

In view of these facts, we regard with emphatic disfavor the growing tendency to ignore the proper observance of Sunday, and for the purpose of selfish gain and amusement to transgress the civil laws of the Sabbath, which have been a mighty bulwark of our Christian civilization.

Indeed, the encroachments of secular life upon the Sabbath of our time challenge the attention of all Christian people and all good citizens.

It is a remarkable fact also, that at a time when people of Europe are rousing up to a better observance of the Sabbath, the tendency in America is toward laxity and disregard of Sunday laws. If we allow Sunday to become a day of excursions and amusements, we need to remember that the next step is to constant Sunday labor, when the workingman must give seven days of labor for six days' pay. Oppressed labor all over Europe today is crying out for less work and more leisure, less bondage and an increase of Sunday rest.

We are glad to note the fact that in some parts of our country public sentiment is rising in protest against the tendency to secularize the Sabbath. The courts and people of New York state are at this time setting a worthy example.

When a case of public ball playing by professionals on Sunday was brought before the courts of Rochester, in the summer of 1897, Supreme Court Justice Day thus spoke to the grand jury: "I charge you, that public games, known as ball games, are absolutely prohibited under section 265, on Sunday; and whether ball playing on that day is morally wrong or not, whether it disturbs the peace and repose of the community, or whether the provisions of the law are wise or unwise, are questions that are wholly immaterial so far as you are concerned. These games are prohibited on the first day of the week. The law, so far as you are concerned, does not contemplate that you shall try the issue whether games known as ball playing are offensive to the public, or of a disturbing character. The legislature has settled that question by prohibiting such games on the Sabbath."

When the case was tried it resulted in the conviction of the offenders and the disbanding of the club.

Another case, attracting much attention in Buffalo, was brought before the supreme court of New York, at Rochester, October, 1898, on an application to remove the police commissioners of Buffalo for not preventing public games of base ball in that city on Sunday. The court declared that: "The Sabbath is the result of the highest dictates of public policy, as well as of religious duty. 'The Sabbath existed before constitution or statutes and was sanctioned by the common law.'"

The court, consisting of Justices Hardin, Follett, Adams, Green and Ward, after taking proof of the matters, decided that it was the duty of the police commissioners and their subordinates to attend the games and to suppress them by the arrest of the guilty parties.

This put a stop to Sunday ball games in Erie county.

Sunday base ball games, Sunday excursions, in which the railroad corporations offer bribes to the people to desecrate the Sabbath, saloons open on Sunday, are some of the wanton and utterly inexcusable breaches of law in our city.

When courts, executive officers and citizens of other states are guarding more earnestly than ever the heritage of a Christian Sabbath, is this the time when the people of Indiana should face toward anarchy and defy the best sentiment of the community?

Resolved, That all Christian people and all good citizens are requested to consider these facts and use their influence for the public good, and the promotion of a worthy sentiment in Sunday observance;

Resolved, That we demand the enforcement of the Sunday laws by our officials;

Resolved, That in every righteous way we discourage Sunday amusements, Sunday excursions, Sunday newspapers, and all unnecessary Sunday work.

VICIOUS DOG ATTACKS BABE.

LITTLE SON OF WM. MORENE BADLY INJURED.

Child's Face Fearfully Lacerated by the Savage Brute This Morning.

Robert Morene, the 3-year-old son of Mr. and Mrs. William M. Morene, residing at 168 Maumee avenue, was fearfully bitten by a savage bulldog this morning, and will no doubt carry the marks of the injury through life.

The little one was playing in an alley near the residence when it was attacked by the dog. The animal seized the child by the right cheek, and its teeth cut two severe gashes down the boy's face, cutting entirely through the cheek, and barely missing the eye.

The family was attracted by the cries of the little one and Dr. G. C. Stemen was hastily summoned. He cauterized the wound and sewed up the fearful gashes made by the dog's teeth, and says the little one will recover, though the face will no doubt be scarred.

The dog was owned by a man named Broeckemeyer and Officer Tremmel will dispatch the animal.

SISTER EXPECTED.

Sheriff Melching received notice today that Mrs. Sarah Vice, of Indianapolis, will arrive in the city this evening to see her brother, F. L. Etchison, who has been confined in the county jail for several days on account of the condition of his mind. She will remain with him a few days before determining what course to pursue.

Closing Out Sale.

MARRIAGE LICENSE.

Jacob Backes and Anna Luley.

Subscribe for The Sentinel.

DEATH CAME QUICKLY.

John Frederickson, an inmate of the county infirmary, died very suddenly at noon today from heart failure. He was 77 years of age, but seemed to be in good health, and while eating his dinner suddenly toppled over and fell to the floor. He was hastily carried upstairs, where he died three minutes later. Frederickson has been an inmate of the institution for about eight years.

TWO ARE STRICKEN.

Ernest F. Kirchner, residing at 161 Eliza street, suffered a stroke of paralysis yesterday. Mr. Kirchner is quite aged, and his condition is serious.

Jacob Schank, a cigarmaker, whose home is at 75 Fourth street, yesterday sustained a stroke of paralysis, involving the entire left side. His condition is critical.

CYCLISTS IN A WRECK.

Shortly after 8 o'clock last evening a party of cyclists at Robison park met with a peculiar accident and a number of persons were somewhat injured. In the company were Mr. and Mrs. Joseph Shadle, Mr. and Mrs. Harry Long, Mrs. Williams, Charles Rendles and Mr. Lang. They rode near the old-fashioned windmill at the park for the purpose of checking their wheels. It was quite dark and the leaders did not see a rope which was stretched near the building. The front wheels of two cycles passed over the rope, which then rebounded between the wheels and threw the riders. It was impossible for the riders who followed to stop, and soon they were all in a promiscuous wreck. All sustained some injuries, those of Mrs. Shadle and Mr. Long being quite severe. Most of the wheels were badly damaged.

A COUNTRY ROBBERY.

Sheriff Melching received word at noon today that the home of Christian Nietert, in Adams township, had been robbed Sunday while the family were attending services at a Lutheran church. No report was received of property stolen, and Deputy Sheriffs Witte and Snider are this afternoon making an investigation of the premises. The robbery is supposed to have been the work of tramps.

William Ropa, market master, has given notice that he will sell at public auction on Saturday, June 3, the spaces on the city market. The sale will begin at 9 a. m.

NEW JACK O' THE DUST.

Career of the Recently Appointed Paymaster General of the Navy.

The navy has a new chief Jack o' the Dust. He is Albert S. Kenny, who has been promoted from general storekeeper to paymaster general, with the rank of rear admiral and the pay of a brigadier general. Not only will he have charge of the pay rolls of Uncle Sam's fighting Jack Tars, but a great deal more besides. All the repairs to ships, the providing of coal, provisions and clothing, will be under his personal direction. Over all of the seven seas he must keep his eyes that none of our men-of-war's men may go hungry or ill clad.

The advancement of the new paymaster general, who was jumped over the heads of several other pay directors, is due to his marked ability for the work. He showed this in systematizing the purchase and distribution of supplies in the navy. He was the originator of the general storehouse and administered it

ALBERT S. KENNY.

during the war with Spain in such a manner that our war vessels lacked nothing to make them efficient fighting machines.

Mr. Kenny was born in Iowa and appointed from Vermont in 1862 as assistant paymaster. He served on the blockading squadrons during the civil war and was present at both attacks on Fort Fisher. He became pay inspector in July, 1884, and after holding several important posts became general storekeeper in October, 1889. He went to the European station in June, 1892, returned to New York in January, 1896, to take charge of the navy yard pay office and was again made general storekeeper in June of that year.

How to Make Fancy Sandwiches.

Chop cold chicken very fine and soften it to a paste with butter and cream. Season with salt and pepper and spread on thin graham or wheat bread. Mushrooms added to the paste give it a spicy flavor. They should be stewed and chopped fine.

How to Fry Apples.

Take out the core and slice the apple in thin round pieces. Do not peel. Drop in a pan of hot butter or lard and let them fry a light brown. Take out with a strainer, sprinkle them with sugar and serve hot. Small apples are best for frying.

How to Prepare Stuffed Clams.

Steam and chop 20 large clams, brown three large onions in butter, add one well beaten egg, one-quarter cup of melted butter, 1½ cups of solid tomatoes, one-half teaspoonful of salt, same of pepper; chop all together once more. Fill the half shell of clam with this mixture, cover with cracker dust, with small pieces of butter on top. Bake 20 minutes in hot oven and serve at once with catchup.

How to Disinfect.

To keep clean the house where a consumptive lives is essential to keep other inmates from contracting the disease. The best and the cheapest plan in the sickroom is to pour carbolic acid and water into a saucer and keep it standing there all the time. A piece of flannel or felt placed in a saucer will check evaporation to some extent. Two saucers are better than one. If there are children or pet dogs and cats in the house, it is better to place the saucer on a mantel out of reach of meddlesome hands. The solution must be renewed every 24 hours.

Much care should be exercised in rinsing the cuspidors with hot water and flushing all vessels used by consumptives with carbolic acid and water.

Carpets and lace curtains are liable to hold germs and dust if a consumptive is confined to a room; hence as much fresh air and sunlight as possible should be instantly admitted.—St. Louis Post-Dispatch.

How to Make Mackerel Salad.

Take one can of mackerel and cut up an equal quantity of celery. Stir to a cream one cupful of butter, one tablespoonful of mustard, one of sugar, a pinch of salt and pepper and the yolks of three hard boiled eggs rubbed smooth with five tablespoonfuls of vinegar. Pour the mixture over the fish and celery.

How to Terrapin Chicken.

Take three pounds boneless boiled chicken, chopped fine, add to it a pint of broth, one-half pint cream, four hard boiled eggs, five heaping teaspoonfuls richly browned flour, one teaspoonful salt, one cup butter. Rub the eggs through sieve, add the browned flour, broth, eggs and cream to chicken, with two pieces of chopped celery. Cook slowly 10 minutes, season with mace and pepper to suit taste. Just before serving on golden browned toast add two wineglasses madeira wine.

How to Make Cabbage Salad.

Small head of cabbage chopped fine, an even teaspoon of mustard, an even teaspoon of salt, a tablespoon of sugar, half cup of vinegar, two eggs, piece of butter size of an egg melted separately. Stir all in before pouring over the cabbage. Let all the ingredients except cabbage come to a boil just to thicken except the butter, which add last, then pour over cabbage while hot.

GOING OUT OF BUSINESS.

THIS MAY INTEREST YOU SOME, BUT IT DOESN'T INTEREST YOU NEARLY AS MUCH AS DO THE VERY LOW PRICES WE ARE SELLING ALL OUR GOODS AT, IN ORDER TO GET OUT OF BUSINESS---THERE IS WHERE YOUR INTEREST COME IN. OUR GOODS ARE SOLD AT 30 PER CENT BELOW COST. HERE ARE A FEW PRICES.

WAR ON THE SEALS.

WHY CALIFORNIA WANTS TO THIN THEM OUT IN THE GOLDEN GATE.

They Kill Too Many Salmon and Serve No Purpose Except to Lend Picturesqueness to the Rocks Near the Cliff House.

A unique warfare is to be begun in the waters of the Golden Gate. The California state fish commissioners are going to thin out the seals in San Francisco bay and adjacent islands. For years the seals have been protected by law, but long ago they became a nuisance, and now it has been determined that they must go.

The fondness of the seals for salmon and other food fish has been their undoing. It is said that one seal will eat 50 pounds of fish at a meal and kill twice as much more just for the fun of it. Besides this, he destroys nets. When the fish commissioners reflect that thousands of dollars are annually spent to stock the Sacramento river with salmon, they draw the conclusion that seals are an expensive luxury.

All that the seals are good for is to add picturesqueness to the rocks near the Cliff House, where their antics are watched by interested tourists. Years ago, when seal hide was used for belting, the seals were hunted and their numbers kept down, but since rubber has taken the place of seal leather for belting the seals are no longer systematically killed.

The principal breeding place of the seals is on the Farallone islands, about 19 miles from San Francisco. The territory of these islands is a lighthouse reservation and under control of the treasury department. As in past years seal hunters did much damage to lighthouse property, the hunting of seals and birds there was forbidden. So the California fish commissioners have put the facts before Secretary Gage and asked for permits to kill seals on the island. As soon as these permits are issued the killing will begin.

These seals are not the fur seals of commerce. They are the gray seals and are not worth the ammunition that it requires to kill them. In their habits they do not differ materially from the fur seals of Bering sea. There still is much to learn about them. After the baby seal has been taught by its mother to swim and care for itself the pup disappears and for two years does not return to the rookery where it was born. Where it goes and what it does in the meantime are mysteries that no one has solved.

The Seal rocks, near the Cliff House, are occupied mainly by the young bachelor seals, who have not yet established a claim to set up a harem. Until a bachelor seal reaches 5 or 6 years of age he has not the strength to meet the old bulls in combat and is driven off the breeding grounds. When his teeth are fully grown and he waxes strong, he enters as a competitor for the favor of the cows and at once becomes the head of a harem. The biggest bulls weigh something over a ton, and it requires four strong men to handle the carcass. The cows average from 1,000 to 1,500 pounds, and the yearling pup weighs about 300 pounds.

Their favorite fishing places are narrow channels between the islands, through which the fish are carried by the strong current. When a certain whitish ridge on the waves shows that the fish are coming, the seals dive off the rocks and begin the attack. They toss up the fish and catch them in their mouths, but as soon as they have satisfied their hunger they wantonly destroy the fish. Generally they bite a

SEALS ON THE FARALLONE ISLANDS.

piece out of the back of the fish, or else they simply crush it in their strong jaws and toss it on the water. If the air is in the fish's bladder, the carcass floats; if not, it sinks. After such a raid by seals the water is often covered with the bodies of dead and mangled fish.

For 20 or 30 years the fishermen generally, and the salmon packers of the Sacramento especially, have been complaining of the sea lions and praying for their destruction. This same agitation has bobbed up periodically. Fish commissions have heard delegations, discussed, resolved and reported over and over again, and the verdict has always been that the sea lion destroys enormous quantities of fish, seriously interferes with the fishing industry hereabouts, especially the salmon industry, and that his number should be lessened. But the sea lion has been protected by law, and each agitation has died without result.

But this time the seals must suffer. The exact method to be pursued has not been determined, but that is a mere detail. Deputies and some hired riflemen may be sent out to do the work, and, as is most likely, the work may be done under some sort of a contract arrangement with skilled men.

MARK NORRIS.

FOOD FOR CHILDREN.

How to Feed the Little Ones to Keep Them Healthy.

As soon as teeth begin to come, saliva begins to be secreted and food more concentrated, then simple milk is not only permissible, but desirable. Go slowly with the new dietary and watch the movements. Allow such and as much as does not change markedly the color and consistency of these cont of the normal. It is the identical rule that obtains in feeding young calves. If things go wrong, move back to or toward milk, or milk and long boiled strained gruels, or a tested baby food. But ordinarily it is safe to give meat juice, soft boiled egg, scraped ripe apple or peach, orange and grape juice, other fruits baked or stewed, potato sparingly, cream and butter moderately, bread, soups and very small portions of tender beef and chicken, chopped fine. Seedy fruits, hard or fibrous fruits, sweet dishes, jellies and the like, coffee, baked meats, pies, rich cake, preserves—these are the class of articles that will cause regret.

It is thoughtlessness in allowing, say, sausage or doughnuts to reach a baby's hands and mouth that leads to trouble, rather than misjudgment, where any mother sets out seriously to give her baby only what she finds (by the movements), day by day, it can do well on. Where milk (always to be continued, in some form, as a liberal constituent) is not relished it often will be by beating up an egg, taking half, filling the cup up with milk and salting and sugaring a little.—New Voice.

How to Make Sauce For Chops.

A hot sauce for chops is made as follows: Oil an ounce of butter, stir in gradually a dessertspoonful of made mustard and a good pinch of cayenne. Chop finely a few chillies and add to the above. Mix all together and pour over the meat. Another sauce: Fry some sliced onions in dripping till a rich brown, add some brown sauce and stew all together for a few minutes. Pass all through a hair sieve, add a squeeze of lemon and serve.

How to Detect Meningitis.

A severe headache is usually the first symptom, and especially in children, should then be observed. The headache may continue for a day and then apparently cease. On the second day violent sickness appears, and the patient vomits frequently. When this ceases the headache returns, and it is more severe than ever. A high fever accompanies the first headache. It disappears and with the second appearance of the fever returns with new force. The brain becomes congested. It is then the head begins to draw back. If a physician is not called before the disease reaches this stage his services are likely to prove of no avail. The parent should not neglect calling a physician promptly when delay might result so disastrously. The spots are only a symptom, and they may appear at any stage. In fact, they have been known to appear only after death.—St. Louis Dispatch.

How to Make Dried Apple Pies.

Pick and wash one quart of dried apples and put in a porcelain kettle with two quarts of water and two of cider. Let this stand overnight, and in the morning place on the fire and simmer three hours. Then lay in (but do not stir) two quarts of sugar and simmer two hours longer. Then turn into a stone pot and put away for use. Make the pies the same as green apple.

How to Make Lemon Drops.

Better lemon drops than any you buy at the store can be made at home by boiling a pound and a half of powdered sugar in a pint of water, with a teaspoonful of cream of tartar, and enough lemon juice to suit the taste. In half an hour pour into buttered dish, pull out into long sticks, and chop into convenient size. A good butterscotch candy is made by boiling two cupfuls of sugar in two tablespoonfuls of water. Add a piece of butter the size of an egg, and when the mixture hardens on the spoon pour out on buttered plates to cool.

How to Make Graham Pies.

Into a pint of graham flour stir one teaspoonful salt. Wet with boiling water enough to make a stiff paste. Roll this very thin and cut into cakes about three inches in diameter. Put into these a spoonful of apple sauce and fold them. Bake on tin sheets.

How to Make Whey.

To a pint of warm new milk add a teaspoonful of prepared rennet. Let it stand and then strain through a piece of muslin. This can often be taken when milk cannot and is a useful drink in feverish complaints.

How to Make Lint.

Save all pieces of old linen that are not too torn or small. Nail each piece separately upon a board and scratch up the surface gently with a blunt knife until a soft fluff is formed of the detached fibres. Then remove the linen from the board and roll each portion separately, keeping the soft side inward. These will be found useful when an injured member requires to be dressed.

How to Make Cheese Custard.

Beat up two large or three small eggs and pour in a basin containing a pint of milk. Grate four ounces of cheese and mix well together. Add one ounce of butter and bake for one hour in a moderately hot oven.

CONCERNING SOUP.

How Various Odds and Ends May Be Utilized In Its Preparation.

The cook who would succeed in sending good soup to the table must take care that she has strong and excellent stock ready for it, and the economical housewife will soon find that stock does not always require meat to be bought for its production.

The water in which mutton has been boiled, the bones taken from rolled ribs of beef or from any boned joint or poultry, will make excellent stock for a family soup. The trimmings of large joints or cutlets, the shanks of lamb or mutton or ham, and the large bone of the sirloin of beef will all add to the stock pot and supply a good foundation for the soup.

Soups should never be made with hard water, unless it is of green peas, whose color is preserved by the hard water.

The rule as to quantity is one quart of water to a pound of meat without bone. If the quantity of water is diminished, the soup is increased in strength and richness.

Meat should be put into the soup kettle with very little water at first, and with a piece of butter to keep it from burning. It should be left to stew very slowly until the essence of the meat is extracted. Very long and very slow stewing is one secret of good soup.

Skim the soup pot frequently, and do not let it cool until it is thoroughly done. Onions should be put into the soup soon after it has begun to cook; herbs, carrots and celery three hours afterward; turnips or any other delicate vegetable just before the soup is finished. When celery is out of season, the seeds of the plant, tied up in a piece of clean muslin, will give the flavor equally well.

The coloring of soup is done in various ways. A piece of bread, very brown, may be simmered in the soup for a short time before it is done and will give it a brown color. The ordinary coloring, however, is done by putting a little burned brown sugar into it. The sugar is first put into a saucepan with a piece of butter the size of a walnut and a little catchup. For those who do not dislike them burned onions are an improvement both as to color and flavor.

When clear soup is desired, the stock can be clarified by breaking an egg and using the white and the shell, but with not a particle of the yolk in it. The white is beaten to a stiff.

How to Make the Neck Plump.

Following is a recipe which is a tried and true remedy to make a thin neck plump and round: Oil of almonds, six ounces; spermaceti, one ounce; white wax, three-quarters of an ounce; lanolin, two ounces; glycerin (pure), one-half ounce; tincture benzoin, 60 drops; balsam of Peru, one-quarter ounce. Rub thoroughly, but not violently.

BICOLA PILLS

Prevent Waste, Fortify Body and Minds
Feed the Nerves, Make Flesh
and Blood.

The Ideal Tonic For Men and Women

One of the best-known hotel proprietors in the United States is Mr. Henry W. Lawrence, proprietor of the Bates House and Spencer House, at Indianapolis, Indiana. When a man like Mr. Lawrence tells the people everywhere to take Bicola Pills, the great blood and nerve remedy to regain their health and strength; when he tells the weak, tired and nervous that this great remedy will make them strong and well, it means something coming from a man like Mr. Lawrence.

He writes that Bicola Pills gave him immediate relief from a severe attack of rheumatism and general nervousness, and he earnestly advises all sufferers from nervousness and blood troubles to use Bicola Pills.

The Turners of Philadelphia make Bicola Pills.

CENTRAL STATION

PENNSYLVANIA WILL MAKE IMPORTANT CHANGE.

ENLARGING ELECTRIC PLANT.

MOTORS WILL TAKE PLACE OF SMALL ENGINES.

FIFTY YEARS AT THROTTLE.

TONY KELKER STARTS SECOND HALF CENTURY IN CAB.

The Pennsylvania company will establish a central electric power plant at the shops in this city which will have four times the capacity of the present plant. The new station will occupy the south end of the east wing of the planing mill buildings, east of Lafayette street, which now serves as Master Car Builder J. A. Graham's office and the cab painting room. It is the intention to place five large boilers in the plant and a Corliss engine of 450 horse power, but at present only three of the boilers will be set, that number being considered sufficient to generate steam to run the plant until the new freight house is erected, which will not be for some time. When the new electric plant is in operation it will furnish power to drive the pumps at the St. Mary's river and the machinery in several of the departments of the shops where steam engines are now employed. The plant will be installed this summer.

DEATH OF GENERAL MANAGER.

Robert Gillham, general manager of the Kansas City, Pittsburg and Gulf railroad, died at Kansas City, Mo., Saturday after a brief attack of typhoid malaria. As chief engineer Mr. Gillham superintended the construction of the Pittsburg and Gulf system and when the work of construction of the Pittsburg and Gulf manager of the entire system. When the southern lines of the road went into the hands of receivers recently he was named one of the receivers by the state district court. Later, when the federal court assumed jurisdiction in the receivership proceedings he was dismissed as receiver, but the decree specified that he should be retained as general manager.

OUTRAN A TRAIN.

Charles L. Ruel, a stock dealer and an athlete, shipped a train load of stock from Trevor, Wis., to Chicago, a few days ago, and was considerably disturbed over the fact that it took eighteen hours to travel the sixty-eight miles between the two places. He said he could travel that distance on foot in less time than the train consumed, and offered to back his statement by a $500 bet. The railway manager immediately accepted the offer and the money was placed in the hands of a stakeholder. Saturday the feat was accomplished, Buel running the sixty-eight miles in thirteen hours and thirty-five minutes. He was accompanied on the trip by a big crowd of cyclists and men and women in buggies, and 10,000 people witnessed the crossing of the tape.

LOCOMOTIVE EXPLOSION.

A Chesapeake and Ohio locomotive blew up at Maysville, Ky., Saturday, carrying the engineer a distance of fifty feet and seriously injuring him. Pieces of the locomotive were found a quarter of a mile from the scene of the explosion.

A BIG EXCURSION PARTY.

The excursion to Cincinnati yesterday, over the Grand Rapids and Indiana road, was the biggest event of its kind of the season. There were 228 tickets sold at this point and when the train reached Cincinnati it had over 600 excursionists aboard. The Grand Rapids road also took 150 of our people to Rome City, where the majority of them spent the day in fishing.

MANY YEARS IN THE CAB.

Tony Kelker, passenger engineer on the Pittsburg, now running on trains 8 and 5 between this city and Crestline, has been an employe of the company, or its predecessors, for 50 years, and most of that time has been spent in the cab. May 22, 1849, when Mr. Kelker was fourteen years old, he became "water boy" for a gang of grades on the line near Salem, O., the company then being known as the Ohio and Pennsylvania. His father was the contractor for that stretch of road between Salem and Damascus. Two years later, when Mr. Kelker was sixteen years old, he was made foreman of a gang of men engaged in building the immense grade at Damascus. When this job was completed, Mr. Kelker's father accepted another contract near Crestline and moved his family to that place. He was assisted in this work also by his son, Tony, who, at its completion, became a track layer and laid the first rail on the line west of Crestline. He continued in this capacity until the tracks were laid as far westward as Van Wert, when he was placed in charge of a construction train, his engine being placed upon the tracks at Delphos, where it was taken by canal boat from Toledo. This engine was the first locomotive to arrive in this city. August 15, 1855, Mr. Kelker assumed a position in the cab, which has continued until this day, the only change being from fireman to engineer. Mr. Kelker became a passenger engineer in January, 1859.

THE FORCE INCREASES.

There are now 205 shopmen and fourteen office men in the employ of the Fort Wayne Electric works, an increase of over a dozen over last week. Among the names added to the list this morning were John Miller, William Schaefer, Charles Bott, Jas. Bailey, Edward Conroy and Herman Eichmeyer. Supt. J. J. Woods said a few days ago that he expected to have the biggest force in the history of the establishment at work in a few weeks and it seems that this expectation is about to be realized.

MAY BE A LIFE-LONG CRIPPLE.

Frank Meyers returned from Chicago yesterday and this morning resumed his place in the Pittsburg shops. He says his brother George is badly hurt, the muscles and tendons of his right arm being crushed, and his side and hips painfully bruised. It is feared that the injured arm will never be restored to its original condition. George Meyers was formerly employed in the Pittsburg shops also. He has been switching in the yards of the Chicago and Eastern Illinois company for two years.

WILL MOVE TO ALTOONA.

George Slater, the well known machinist in the Pittsburg shops, has returned from Altoona, Pa., where he went a few days ago to visit relatives and old friends. While there he was offered and has accepted a position in the Pennsylvania shops and is now packing up his belongings preparatory to returning to that city to stay. Mr. Slater is well liked by his shopmates and they will be sorry to learn that he has decided to remove from the city.

INDUSTRIAL NOTES.

Timothy Kelley, of the Bass 'smith shop, is sick.

Blacksmith Henry Bickness, of the Pittsburg shops, is sick and off duty.

George Hill, of the Pittsburg planing mills, is sick and off duty.

J. W. McCoy, of the Wabash shops, was the guest of his brother at Wabash over Sunday.

Machinist Philip France, of the Pittsburg, was in Chicago yesterday, the guest of friends.

T. J. Foley left this morning over the Wabash for Toledo on business for the Pennsylvania company.

Charles Lehr, the engineer on the Pittsburg transfer engine, has taken a vacation, which he is spending in Chicago.

The Detroit and Lima Northern company has let contracts for a new passenger and a new freight depot at Bellefontaine.

J. J. Jones and Martin Didion, blacksmiths at the Bass works, resumed work this morning, after a few days' illness.

General Manager Joseph Ramsey, of the Wabash, who has been in Washington several days, returned to St. Louis Saturday.

Charles Szink, painter at the Pittsburg shops, is spending a two weeks' vacation in Altoona, Pa. He formerly resided in that city.

S. F. Bender, who has charge of the puzzle switch in the Pittsburg yards at night, is kept from work by sickness in his family.

Boilermaker John Meyers, of the Wabash, has gone to Delrny, Mich., to do some work for the company, which will consume about a week.

The Electric works will install a lighting plant at Champaign, Ill., and last Saturday sent the dynamo and station equipment material to that city.

Car Conductor S. H. Piepenbrink and Motorman S. V. Harper left this morning for Washington, D. C., where they will remain the rest of the week.

On June 3d over 200 farmers on the line of the Lake Erie and Western will visit Purdue. The Lake Erie and Western gives them low rates and a special train.

A. M. Schoyer, superintendent of telegraph of the Pennsylvania lines west of Pittsburg, spent a few hours in the city this morning. He was en route to Grand Rapids.

The Illinois Central is pushing the building of the Phillips branch, and if the weather continues favorable trains will be running over the new extension by July 15th.

W. J. Hart, general manager of the Detroit, Lake Shore and Mt. Clemens road, has resigned, and Thomas N. Fordyce, secretary of the company, will assume the duties of general manager. Frank A. Draper will be general superintendent, and L. J. Raney will be given charge of the mechanical department.

Cashier Joseph Sunderland, of the Wabash freight office, left this morning for Indianapolis, thence to Cadmore, O., to attend the reunion of the Sunderland family.

L. O. Fisher, of the Wabash shops, spent Sunday with his family at Antwerp, Ohio. He will bring his wife and children here to reside as soon as the schools at Antwerp are out.

Archie Smith, who recently took a position in the Wabash shops, has resigned and returned to Detroit, Mich., where he will resume the position he vacated when he came here.

Engineer David Raidy, of the Pittsburg, is enjoying a few days' rest and this morning, in company with his daughter, Miss Nellie Raidy, went to Valparaiso to visit relatives.

Louis Gronau, of the Pittsburg planing mills, was taken suddenly and violently ill yesterday and for awhile was considered in a dangerous condition. He was reported better this morning.

The annual meeting of the Veteran Employes' association of the Pennsylvania road was held on Thursday at Altoona. Out of a membership of six hundred over three hundred were present.

Charles Porter, an electrical engineer, has returned from Huntington, W. Va., where he was lying ill a couple of weeks, at the home of his father. He has resumed his duties with the electric company.

Ripley, Ohio, has voted to issue $15,000 worth of city bonds, the receipts to be devoted towards a site for railway shops which the Columbus, Ohio River and Tidewater company promise to locate there.

Class O, engine 48, which hauls trains 8 and 5 between this city and Crestline, Tony Kelker at the throttle, is receiving a larger tank. The new tank will hold 5,000 gallons, sufficient water to make a run of 120 miles.

Indianapolis Journal: "Thomas O'Connell, who has been in the Big Four shops in Brightwood for some years, has been appointed superintendent of the Wabash shops at Peru, Ind., and Saturday removed his family to that place."

Rhienhart Sitterlin, of the Bass blacksmith shop, is preparing for a trip to Germany, his native country. He will leave for New York June 1 and sail for the old country a few days later. He expects to be abroad about three months.

The projectors of the extension of the Southern Indiana road are meeting difficulty in the extension of the road to Linton, the farmers on the proposed line having combined and placed a much higher value on the land required for right of way.

It is stated that the owners of the Chicago and Eastern Illinois have decided to extend what is known as its Cissna Park division, from Cissna Park to Anchor, forty miles. Anchor is a mining town in the heart of the McLean county, Illinois, coal fields.

Joseph Bly has been added to the police force of the Pennsylvania and has been assigned to duties at the east car shops. He is a son of Theodore Bly, the veteran yardmaster. Joseph was employed as solicitor of subscriptions to The Sentinel several months ago.

On the Chicago division of the Pan Handle, on Tuesday, twenty-five firemen were laid off for an indefinite period, fifteen engineers were put back to firing and six regular firemen were placed on the extra list, on account of the falling off in business on this division.

The late Roswell P. Flower owned the controlling interest in the Chicago and Eastern Illinois. There is some speculation as to the future of the road, as his death may open the way for the sale of these securities to parties who have, for some years, been trying to get hold of the road.

Charles Harley, warden of the Michigan City penitentiary, returned to his home this morning after a business visit in Fort Wayne. A new power house is to be erected at the penitentiary and Mr. Harley was in Fort Wayne for the purpose of inspecting the engines manufactured by the Bass works.

Operating trains by telephone instead of telegraph is a radical innovation that has been made by the Illinois Central company. It is one of the first attempts ever made to direct the movements of railroad trains by anything but the time-honored written telegraphic order. Officers of the experimenting company pronounce the verbal system a success and it may be tried for longer distances. The telephonic train dispatching has been done on the elevated tracks of the St. Charles airline.

Christian Rathert, who has gone to Chicago to assume the foremanship of the blacksmith department of the Seimens-Halske works, was honored by his former shopmates at the Electric works Saturday night. About fifteen or twenty of them called at Mr. Rathert's home and were entertained most pleasantly. A fine lunch was served at 11 o'clock. Mr. Rathert was, until last Saturday, foreman of the blacksmith shop at the Electric works. He is succeeded in that position by William Tegtmeyer, who was employed at the forge in that establishment for some time.

Prices that Completely Eclipse— Competition,

At J. L. Sievert's Wholesale and Retail Optical and Jewelry establishment, 85 Calhoun Street.

We are determined to sell more rings than all other stores combined.

For this week we offer you choice of seventy-five set rings at only $1.00 each, worth from $2.50 to $3.50.

100 different patterns at only $2.00, worth $4.00 to $5.00.

Engagement and wedding rings go at half-price.

On our line of 8-day striking clocks we save you from $2.00 to $2.50 on every purchase.

Fitting glasses to the eye is our specialty; with a feeling of pride we can show up our good results. Remember we refund your money if our glasses are not as we represent them and we acknowledge no equal in this part of the state.

L. W. Jones, of Pittsburg, purchasing agent of the Pressed Steel Car company, was here Saturday on business with the Bass Foundry and Machine company. The latter firm is making hundreds of tons of castings and thousands of car wheels for the Pressed Steel company.

COURT HAS NO JURISDICTION

JUDGE HENCH MADE AN IMPORTANT DECISION.

Holds That the Federal Court Only Has Jurisdiction in the Affairs of the Schell Company.

Judge Hench this afternoon rendered his decision in the case commenced by Sarah J. King et al. vs. Hugh G. Keegan, trustee of the J. F. Schell Loan and Investment company. The plaintiffs asked for an order restraining the trustee from selling the vault and other additions to the Schell offices, contending that they were a part of the building. W. J. Vesey, for the trustee, contended that the state courts had no jurisdiction in the case, inasmuch as the federal court now had charge of the affairs of the company. Judge Hench held that the state courts had no authority and cited many opinions to uphold his finding in the case. Judge Colerick, for the plaintiffs, then asked for a restraining order and stated that he desired the regular judge of the court to pass on the matter. Judge Hench doubted whether he had any authority to issue a temporary restraining order after the demurrer had been decided, and gave the attorneys until 4:30 to submit decisions, at which time he will decide as to the temporary restraining order. The sale of the Schell property will occur next Wednesday.

STRAWBERRIES FROM ILLINOIS TOMORROW (TUESDAY) MORNING. 8C QUART AT THE GREATEST.

Closing Out Sale.

Louis Nichols has resigned his position at the Greatest Grocery and will enter other pursuits.

Albert Schoch, who has been ill for the past few weeks, has completely recovered and is able to be out again.

Mr. and Mrs. Kade, of Garrett, spent Sunday with Mrs. Kade's parents, Mr. and Mrs. William Martin, of this city.

Mrs. Elizabeth Eckart and daughters, the Misses Anna and Henrietta, have returned from a three months' visit in California.

A horse driven by Henry Ortman and Paul Stahl ran away on Calhoun street Saturday evening, smashing the buggy to which it was attached and throwing the gentlemen out. The horse dashed on to the sidewalk and into the crowd in front of Mordhurst's drug store, but no one was hurt.

FIRE AT HARLEM TRACK.

Chicago, May 22.—The Harlem race track was almost completely destroyed by fire early today. Incendiarism is given as the origin of the fire. Most of the horses at the Harlem track were rescued. The track is owned by a party of Chicagoans of which Richard Fitzgerald is the head. The buildings on the track were valued at $100,000. No insurance.

Mothers be sure and use "Mrs. Winslow's Soothing Syrup" for your children while cutting teeth. It is the best remedy of all. MayBood&w.

Closing Out Sale.

NOTICE.

Entries for Randall Road Race close Thursday. Entry blanks can be secured at our store.

RANDALL WHEEL CO.

The song recital to be given by Mr. Charles M. Clark and Miss Helen Smyser at Kimball hall, Tuesday, May 23, promises to be the musical event of the season. Mr. Clark is very prominent as an oratorio and concert singer, the most prominent in the west and probably in America. He studied with Henschel in London and while abroad sang the role of Motor with enormous success. He returned to Chicago last year.

Miss Helen Smyser, who assists him in the concert, is well known here; she has been studying with Mr. Clark since last fall.

Mrs. Fisher, of Chicago, will be the accompanist. The program is exceedingly attractive.

The Dichterlieb of Schumann's forms the first part of the program which Mr. Clark will sing entire. The second part will consist of solos from the Persian Garden by Miss Smyser and Mr. Clark.

BASE BALL.

Tomorrow. Youngstown vs. Fort Wayne. Game called at 3:30.
